VIII.	NAV disclosure	<p>The AMC will prominently disclose the NAVs under a separate head on the website of the Fund (www.boimf.in) and of the Association of Mutual Funds in India-AMFI (www.amfiindia.com) by 11 p.m. on every Business Day.</p> <p>Further Details in Section II.</p>
IX.	Applicable timelines	<p>Timeline for Dispatch of redemption proceeds:</p> <p>The Scheme will dispatch redemption proceeds within 3 Business Days from the acceptance of the Redemption request or such other time as may be prescribed by SEBI from time to time.</p> <p>Redemption/Switch Procedure in case of physical form:</p>

Sr. No.	Title	Description
		<p>The investors holding units in physical form may submit their redemption/ switch requests duly signed by all the holders (as per the mode of holding) at any of the Point of Acceptance (POA) Investor Service Centers (ISC) of Registrar & Transfer Agent viz., M/s KFin Technologies Ltd. or Bank of India Investment Managers Pvt. Ltd. latest by the cut off time as stipulated and revised by SEBI from time to time which is currently 3.00 p.m. on any business day. Such cases will be eligible for NAV of the business day on which the redemption requests are time- stamped upto the cut-off time at the ISC for the Scheme.</p> <p>Redemption / Switch Procedure in case units are held in dematerialized form:</p> <p>The investors who hold units in demat form and wish to redeem their units will have to take following steps:</p> <ol style="list-style-type: none"> 1. Investors will have to approach their DP (Depository Participants) where Demat Account is being held. 2. Investors will have to submit duly filled-in and signed Redemption/Repurchase Request Form (RRF) available with respective DPs. Normally, these RRF may be available on the websites of respective DPs e.g. Banks etc. As the format of RRF may be different with every DP, the investors are advised to use the RRF procured from their own DP to avoid rejections/delays by their own DP. The ISIN of the Scheme/plan/ subplan is printed on the Statement of Account issued to investors. 3. The investors are required to submit 3 copies of RRF to their DPs. One copy of the RRF is used by the DP for issuing acknowledgement to investors whereas the second copy of the RRF will be forwarded by the DP to the Head Office of the RTA i.e M/s KFin Technologies Ltd. The third copy will be retained by the DP for their own records. 4. Based on the receipt of RRF, if found in order the DP concerned generates Electronic Redemption Request and blocks the units applied for redemption in the NSDL/CDSL system immediately. After this, the investor will not be able to transfer the blocked units to anyone (i.e. cannot transfer to anyone). 5. The Electronic Requests generated up to the stipulated cut off time which is currently 3 pm every day by DPs shall get transmitted from NSDL / CDSL to respective Registrars of Mutual Fund by 4 - 6 pm.

Sr. No.	Title	Description
		<p>6. All such Electronic Requests transmitted by NSDL / CDSL by 4 - 6 pm everyday are updated in the system at Registrar's end i.e. M/s KFin Technologies Ltd. for further processing.</p> <p>7. Registrar shall verify and process the requests subject to finding the same in order by</p> <ol style="list-style-type: none"> a) Nullifying the units by confirming Electronic Repurchase Request; b) Applying NAV based on Date and Time of raising Electronic request by DP's for Redemption Request; c) Remitting Redemption proceeds to investor's bank account (as recorded in demat account) within 3 business days and d) Dispatching an SOA (Statement of Account/Consolidated Account Statement) to the registered address of investor. <p>8. After the above process is completed, the Registrar will update the respective Depository (i.e. NSDL/ CDSL) about the processing of redemption to enable their DPs to issue Fortnightly/ Monthly Transaction Statement.</p> <p>A Unit holder has in case of physical redemption request for redemption either in terms of Amount or in terms of the number of Units. In case, the redemption request indicates both amount in Rupees and number of Units, the lower of the two in value term will be considered. Where a Rupee amount is specified or deemed to be specified for redemption, the number of Units redeemed will be the equivalent to the amount sought redeemed plus the exit load & applicable Govt levies like STT divided by the redemption price (ie additionally subject to the levy of applicable STT and exit load).</p> <p>In case of difference/ ambiguity in the amount and units mentioned in any request for Redemption/ Switch, the minimum value (of units and amount) on rupee equivalent basis on the Transaction/ applicable NAV date will be considered by the AMC, provided the investor has not furnished any clarification in writing, duly signed on the date of transaction. In the event of investor not having filled in the Amount/ Units in the Transaction Slip, the AMC will redeem/ switch out all the outstanding units in case the Scheme, Plan, Option are clearly mentioned.</p>

Sr. No.	Title	Description
		<p>In case, the investor has not mentioned the plans/ sub-plans etc. in the redemption request specifically where he is having holdings in various plans/sub-plans etc. of the particular scheme, AMC will summarily reject such redemption request if the investor has not furnished any clarification in writing, duly signed on the date of transaction itself, during normal office hours.</p> <p>In case, an Investor fails to mention the complete name of the Scheme upto plan/sub - plan level while making request for redemption/ switch-out, the AMC reserves the right to redeem/ switch-out all/specified desired units/ value provided the investor is having holdings only in one scheme/plan/option and the folio number is clearly mentioned or if he maintains one folio. Otherwise, such incompletely filled requests would be summarily rejected without processing.</p> <p>Investors are requested to note that in case of redemption/switch request, if the number of units or the amount to be redeemed/switched out to any other Scheme of Bank of India Mutual Fund, exceeds the number of outstanding units or value of outstanding units, respectively, then Bank of India Investment Managers Private Limited (the “AMC”) shall, at its discretion, redeem/switch out all the outstanding units, if no clarificatory letter is received from the respective investor on the date of the transaction and if the condition of minimum investment amount of switch-in scheme is fulfilled.</p> <p>The number of Units so redeemed will be subtracted from the Unit holder’s account and a monthly industry level Mutual Fund Consolidated Account Statement (CAS) containing the details will normally be dispatched / emailed to the Unitholders latest by 15th of subsequent month by NSDL/CDSL in case of Demat Units or by AMFI’s appointed Agencies (currently M/s. The securities may be acquired through Initial Public Offerings (IPO s), secondary market operations, private placement, rights offers or negotiated deals. the Scheme may also enter into repo and reverse repo obligations

on Gsecs held by it as per the guidelines and regulation applicable to such transactions pending deployment of funds of the scheme investment in short term deposits of scheduled commercial banks will be as per the provisions of SEBI (MF) Regulations, 1996 and relevant SEBI Circulars as amended from time to time.

- (g) Any other instruments as permitted under the SEBI (MF) Regulations from time to time.
- (h) The Scheme will invest only in investment grade securities that are rated investment grade by domestic credit rating agency authorized to carry out such activity such as CRISIL, ICRA, CARE or FITCH or in unrated debt securities, which the Fund manager believes to be of equivalent quality. Where investment in unrated debt securities which do not fall under the set parameters, the specific approval of the Board of Directors of the AMC and Trustee shall be obtained prior to investment.

3. Investment in units of Mutual Funds schemes:

- (a) To avoid duplication of portfolios and to reduce expenses, the Scheme may also invest in debt and liquid schemes managed by the AMC or in the debt and liquid schemes of any other mutual funds (without charging any fees) in conformity with the investment objective of the Scheme and in terms of the prevailing SEBI (MF) Regulations. Provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Fund.

4. Investment in Derivatives:

- (a) Debt Derivative
- (b) Equity Derivative

5. Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations.

The AMC shall ensure Compliance with para 12.30 of SEBI Master circular on inter scheme asset transfer provisions.

The AMC shall ensure Compliance with para 12.9 of SEBI Master circular on investment limits for investing in HFCs.

DEBT MARKET IN INDIA:

The Indian debt markets are one of the largest such markets in Asia. Government and Public Sector enterprises are predominant borrowers in the market. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts and pension funds.

The instruments in the market can be broadly categorized as those issued by corporates, banks, financial institutions and those issued by state/ central governments.

The debt markets are developing fast, with the rapid introduction of new instruments including derivatives. Foreign Institutional Investors are also allowed to invest in Indian debt markets now. According to National Stock Exchange, the market capitalization of the Indian Bond markets is

approximately Rs 1011.49 trillion as on March 31, 2024 (source: NSE Website) The money markets in India essentially consist of the Treasury bills (T-bills), Commercial Papers (CPs), Certificate of Deposits (CDs), Bill Rediscounting (BRD) and Tri- party Repos (TREPs).

The Government of India (GOI) routinely issues both T-bills and government securities for liquidity and fiscal management. The T-bills are issued as a discount to their face value whereas the government securities are issued as coupon bearing securities. The GOI had issued certain Zero Coupon Bonds (ZCB) in the past. Both the T-bills and the coupon bearing government securities are issued by RBI on behalf of GOI. Total Outstanding in the Government securities market on March 31, 2024 was Rs _98.99 Trillion. (source: RBI website).

The Corporate bond market is also fast developing with greater number of corporates raising capital through issuances of non-convertible debentures and commercial papers. The corporates are issuing both dated coupon bearing and floating rate NCDs. The debentures and CPs are rated by rating agencies. Some of the capital is even raised through the private placement route. Of late the money market segment of the Indian debt market has become liquid and the longer dated bonds and debentures are less liquid in comparison. Currently, the corporate sector is issuing floating rate debentures linked both to the MIBOR and the INBMK (Indian G-Sec benchmark).

The debt market presently offers a variety of short term and medium term instruments with different risk and return characteristics. The various instruments currently available for investments and their indicative yield are (as on May 31, 2024):

Instrument	Tenor	Yield (%)	Liquidity
T-Bills	91 days	6.80-6.85	High
	364 days	7.01-7.05	High
Commercial Papers	3 months	7.25-7.35	Medium
	6 months	7.50-7.60	Medium
	12 months	7.70-7.80	Low
Government Securities	1 year	7.00-7.10	Medium
	5 year	7.00-7.05	High
	10 years	6.95-7.05	High
Corporate Security	1 year	7.50-7.75	Medium
	2 years	7.60-7.80	Medium
Floating Rate Securities	1 Year +	Mibor/INBMK +	Very Low

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme aims to generate capital appreciation by investing predominantly in equity and equity related securities with a focus on navigating business cycles through dynamic allocation between various sectors and stocks at different stages of business cycles in the economy. The fund management would involve active allocation between sectors, stocks and Styles based on the stages of business cycles in the economy. The fund manager will consider macro and micro economic parameters and overlay it with an internal, proprietary model using fundamental and technical analysis of stocks to arrive at the portfolio which will comprehend the sectors, stocks and style which will suit investment objective of the scheme. The stock selection of the scheme would emphasize on identifying companies with sound corporate managements and prospects of good future growth. The fund managers will favour companies that offer the best value relative to their respective long-term growth prospects, returns on capital and management quality.

Trading In Derivatives:

The Scheme intends to use derivatives for the purposes, which may be permitted by SEBI (MF) Regulations from time to time, which will include hedging & portfolio balancing. Hedging does not mean maximisation of returns but only reduction of systematic or market risk inherent in the investment. SEBI has vide its Circular SEBI/MFD/CIR No.03/158/03 dated June 10, 2003, specified the guidelines pertaining to trading by Mutual Fund in Exchange Traded Derivatives.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability to identify such opportunities as well as to manage risks arising thereby. Identification and execution of the strategies to be pursued involve uncertainty and investment decisions may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.

Derivative investments carry certain risks and issues arising out of such dealings. The risks associated with the use of derivatives - either for hedging or for portfolio balancing - are different from, and possibly greater than, the risks associated with investing directly securities and other traditional investments.

For detailed derivative strategies, please refer to SAI.

Risk Control Measure:

Investments in Equity and equity related instruments including derivatives, debt securities and money market instruments carry various risks such as inability to sell securities, trading volumes and settlement periods, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification and hedging. In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the SEBI (MF) Regulations which would help in mitigating certain risks relating to investments in securities market. Further, the AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. There is a Board level Risk Management Committee which reviews overall risk management function.

Risk Mitigation measures for investments in equity / equity related instruments:

- The Scheme aims to maintain a well-diversified equity portfolio comprising stocks across various sectors of the economy. This shall aid in managing concentration risk and sector specific risks.

- The Scheme will maintain a portfolio diversified across a large number of companies. Exposure to individual companies would be in accordance with the risk management and regulatory limits. This diversified portfolio would aid in managing volatility and also improve liquidity of the portfolio.
- The will strive to mitigate risk through a judicious mix of Debt and Money Market Instruments and equity/ equity related instruments.

Risk Mitigation measures for investments in debt instruments:

The investments in debt and Money Market instruments would be undertaken after assessing the associated credit risk, interest rate risk and liquidity risk. The AMC shall undertake credit evaluation of each investment opportunity and invest in rated papers of companies having a sound background, strong fundamentals and quality of management and financial strength. In addition, the Scheme would endeavor to invest in instruments with a relatively higher liquidity, and will seek to manage the duration of the debt assets on a proactive basis to manage interest rate risk and to optimize returns.

The scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI/RBI for the purpose of hedging and portfolio rebalancing.

The above risk control measures shall be implemented by the AMC on a best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in the Scheme.

Review of Strategy:

The above portfolio strategies are not absolute and the Fund Manager may from time to time at its absolute discretion review and modify the strategy, provided such modifications are in line with SEBI (MF) Regulations and the investment objective of the scheme.

Portfolio Turnover Policy:

The Schemes will invest with a long-term outlook on the equity market. The Scheme will endeavor to keep the portfolio turnover at a minimum. However, the portfolio turnover ratio may vary as the Scheme may change the portfolio according to Asset Allocation to align itself with the objectives of the Scheme. The effect of higher portfolio turnover could be higher brokerage and transaction costs. There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Benchmark for the Scheme would be NIFTY 500 TRI. The benchmark is most suited for comparing the performance of the Scheme.

Also, as required under Para 1.9 of SEBI Master circular dated June 27, 2024, the benchmark has been selected from amongst those notified by AMFI as the first-tier benchmark to be adopted by mutual funds.

Further, pursuant to SEBI circular on benchmark, Association of Mutual Funds in India (AMFI), in consultation with AMFI valuation committee, has published the list of benchmark as 1st tier benchmarks

for mutual fund schemes and the same is also made available on its website <https://www.amfiindia.com/research-information/other-data> and <https://www.amfiindia.com/importantupdates>.

The Scheme performance are reviewed by Investment Committee at its monthly meeting. The Board of AMC & Trustee also discuss the Scheme Performance with the respective benchmarks in its meetings.

Further, the AMC shall based on the risk value assigned to the scheme, shall invest minimum amount as a percentage of assets under management of the scheme, Pursuant to para-No. 6.9.2 of SEBI Master Circular.

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

Valuation of assets, computation of NAV, repurchase price and their frequency of disclosure will be in accordance with the provisions of SEBI (MF) Regulations 1996/ Guidelines/ Directives issued by SEBI from time to time. The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

$$\text{NAV (Rs .Per unit)} = \frac{\text{Market or Fair Value of the Scheme's Investments} + \text{Other Assets (including accrued interest)} - \text{Current Liabilities \& Provisions}}{\text{Number of Units Outstanding under the Scheme at the end of the day}}$$

Number of Units Outstanding under the Scheme at the end of the day

The NAV will be calculated up to 2 decimals using standard rounding criteria. The NAV will be computed and announced for each Business Day. The NAV shall be calculated and announced on a daily basis. The NAVs of Growth Option and IDCW Option will be different after the declaration of the first IDCW.

The IDCW paid on units of the Scheme(s) Fund shall be deducted in computing the NAV of the Scheme(s), each time a IDCW is declared and till it is distributed.

NAV Illustration on NAV computation:

Assumptions - on the day of calculation of NAV:

Market or Fair Value of the Scheme's Investments = 1000

Current Assets = 300

Current Liabilities & provisions = 200
 No of units outstanding in the plan = 100

$$\frac{1000+300-200}{100} = 11.00$$

The Fund shall value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be prescribed by SEBI from time to time.

Methodology for computation of sale and re-purchase price of the units of mutual fund scheme:

Let's assume that an investor has invested Rs. 100,000 in a Mutual Fund Scheme on April 01, 2024, at a NAV of Rs. 10/- per unit and the exit load structure of the scheme is:

- a. For exit on or before 12 months from the date of allotment – 1.00%
- b. For exit after 12 months from the date of allotment – Nil.

Purchase of Mutual Fund units:

$$\begin{array}{l} \text{Number of units allotted} \\ \text{At the time of purchase of units} \end{array} = \frac{\text{Amount invested}}{\text{NAV of scheme as on date of investment}}$$

$$\frac{1,00,000}{10} = 10,000 \text{ units}$$

As per existing SEBI (MF) Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

Redemption/Re-purchase of mutual fund units

In case of redemption, the amount payable to the investor shall be calculated as follows:

$$(\text{Current value of the holding}) - (\text{Exit Load applicable})$$

where, Current value of the holding = No. of units as on the date* NAV as on the date

$$\text{Exit Load applicable} = \text{Current value of the holding} * \text{Exit Load} \%$$

Scenario 1: Redemption is done during applicability of exit load

Assume that the investor has requested for redemption of all the units (i.e. 10,000 units), on or before 12 months from the date of allotment i.e. on or before March 31, 2024, the redemption amount payable to investor shall be calculated as follows:

Say in this example the redemption request is done on December 1, 2023; when the NAV of the scheme was Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows:

$$\text{Current value shall be} = 10,000 \text{ units} * \text{Rs. 12/-} = \text{Rs. 120,000/-}$$

$$\text{Exit load applicable} = \text{Rs. 120,000} * 1\% = \text{Rs. 1200/-}$$

Redemption amount payable to investor = Current value of the holding – Exit Load applicable
= Rs. 120,000 - Rs. 1200 = Rs. 118,800/-

Scenario 2: Redemption is done if the exit load is NIL

Assume that the investor has requested for redemption of all the units (i.e. 10,000 units), after 12 months from the date of allotment i.e. after March 31, 2024, the redemption amount payable to investor shall be calculated as follows:

Say in this example the redemption request is done on April 1, 2024; when the NAV of the scheme was Rs. 12 and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows:

Current value shall be = 10,000 units*Rs. 12/- = Rs. 120,000/-

Exit load applicable = NIL

Redemption amount payable to investor = Current value of the holding – Exit Load applicable
= Rs. 120,000 – NIL = Rs. 120,000/-

The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

The AMC shall update the NAVs on the website of Association of Mutual Funds in India -AMFI (www.amfiindia.com) by 11.00 p.m. or such other time as may be mandated by SEBI, on a daily basis. In case of any delay, the reasons for such delay will be explained to AMFI and, if so mandated, SEBI, by the next day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund will be able to publish the NAVs.

As required under the SEBI (MF) Regulations, the fund shall ensure that the repurchase price of an open ended scheme is not lower than 95% of the Net Asset Value. For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees, marketing and advertising expense, registrar expenses, printing and stationary, bank charges etc. The NFO expenses shall be borne by the AMC/Trustee/Sponsor and not by the Scheme of the Mutual Fund. The AMC will ensure that no NFO expenses will be charged to the Scheme.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.25 % of the daily net assets of the scheme will be charged to the scheme as expenses For the actual current expenses being charged, the investor should refer to the website of the mutual fund (<https://www.boimf.in/>) .

As per the SEBI (MF) Regulations, the maximum recurring expenses excluding issue or redemption expenses, whether initially borne by the Fund or by the AMC but including investment management and advisory fee that can be charged to the Scheme shall be subject to a percentage limit of daily net assets as in the table below:

Expense Head	% p.a. of daily Net Assets* (Estimated p.a.)
Investment Management & Advisory Fee	Upto 2.25%
Audit fees/fees and expenses of trustees	
Custodial Fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling Expenses including Agents Commission and statutory advertisement	
Costs related to investor communications	
Costs of fund transfer from location to location	
Cost towards investor education & awareness	
Brokerage & transaction cost pertaining to distribution of units	
Goods & Services Tax on expenses other than investment and advisory fees	
Goods & Services Tax on brokerage and transaction cost	
Other Expenses (to be specified as per Reg 52 of SEBI (MF) Regulations)	
Maximum Total expenses ratio (TER) permissible under Regulation 52 (6) (c)	
Additional expenses under SEBI (MF) Regulations 52(6A)(c)	Upto 0.05%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

The purpose of the table is to assist the investor in understanding the various costs and expenses to be borne by the Scheme. Apart from the above expenses, any other expenses which are directly attributable to the Scheme, may be charged with the approval of the Trustee within overall limits as specified in the SEBI (MF) Regulations except those expenses which are specifically prohibited.

Investment Management and Advisory Fees charged by the AMC to the Scheme shall be within the total expense limit as prescribed under Regulation 52 of the SEBI (MF) Regulations with no sub-limits on said management and advisory fees.

The annual total of all permissible recurring charges and expenses of the Scheme including Investment Management and Advisory Fees as mentioned in the above table, shall be subject to the following limits as specified in Regulation 52(6) of the SEBI (MF) Regulations:

Asset under Management slab (in crore)	TER limits
on the first Rs. 500 crores of the daily net assets.	2.25%
on the next Rs. 250 crores of the daily net assets	2.00%.
on the next Rs. 1,250 crores of the daily net assets.	1.75%
on the next Rs. 3,000 crores of the daily net assets	1.60%
on the next Rs. 5,000 crores of the daily net assets	1.50%.
On the next Rs.40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof,
on balance of the assets	1.05%

Provided that the expenses as per the list as provided by AMFI, which are very small in value but high in volume may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of the scheme AUM, whichever is lower. Such expenses incurred by AMC would be properly recorded and audited in the books of account of AMC at year end.

Further, in addition to the limits prescribed in the Regulation 52 (6) of the SEBI (MF) Regulations, the following additional costs/expenses may also be charged to the scheme:

- (a) Additional expenses, not exceeding 0.05% of daily net assets may be charged to the Scheme(s), incurred towards Investment Management and Advisory Fees and the various sub-heads of recurring expenses mentioned under Regulation 52 (2) and (4) respectively of the SEBI (MF) Regulations, in addition to the limits on total expenses prescribed of Regulation 52(6) of the SEBI (MF) Regulations; except where exit load is not levied / not applicable to the Scheme;
- (b) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from retail investors from such cities as specified by SEBI/AMFI from time to time are at least -
- (i) 30 per cent of gross new inflows in the scheme, or;
- (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher

Provided that if inflows from retail investors from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis:

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities:

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment;

The additional TER in terms of Regulation 52(6A)(b) of SEBI (MF) Regulations, 1996 shall be charged upto 30 basis points on daily net assets of the scheme based on inflows only from retail investors beyond Top 30 cities (B 30 cities). Inflows of amount upto Rs. 2,00,000 per transaction by individual investors shall be considered as inflows from retail investors. Top 30 cities shall mean top 30 cities based on Association of Mutual Funds in India (AMFI) data on 'AUM by Geography - Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

The additional commission for B 30 cities shall be paid as trail only.

Note :-SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/ OW/2023/5823/1 dated February 24, 2023 and AMFI letter dated No. 35P/MEM-COR/85-a/2022-23 dated March 02, 2023 has directed AMC's to keep B-30 incentive structure in abeyance with effect from March 01, 2023 till further notice. Accordingly, the B-30 incentive structure shall be implemented as per SEBI/ AMFI directions from time to time.

Further, GST on investment and advisory fees to the scheme shall be charged in addition to the Total Expense Ratio as mentioned above.

Additionally at least 2 basis points on daily net assets within the maximum limit of overall expense Ratio (as mentioned in the above table) shall be annually set apart for investor education and awareness initiatives.

Investors should further note that the AMC reserves the right to charge a higher percentage of Investment and Management Fees than as mentioned in the SID but within the overall total expense ratio mentioned for the Scheme.

Further, brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (MF) Regulations, 1996.

The TER of the Direct Plan will be lower to the extent of the abovementioned distribution expenses/ commission which is charged in the Regular Plan. The Direct Plan shall also have separate NAV.

The total expense ratios of the schemes of the Fund are available in downloadable spreadsheet format on the AMC website and AMFI website. Any change in the current expense ratios will be updated at least three working days prior to the effective date of the change. For the total expense ratio details of the Scheme, investors may visit <https://www.boimf.in/investor-corner#t4> available on the website of the AMC viz., www.boimf.in and AMFI's website viz., www.amfiindia.com.

ILLUSTRATION OF IMPACT OF EXPENSE RATIO ON SCHEMES RETURNS:

Expense ratio, normally expressed as a percentage of Average Assets under Management, is calculated by dividing the permissible expenses under the SEBI (MF) Regulations by the average net assets. To further illustrate the above, for the Scheme under reference, suppose an Investor invested Rs. 10,000/- (after deduction of stamp duty and transaction charges, if any) under the Growth Option, the impact of expenses charged will be as under:

Impact of expense ratio on scheme's returns						
Particulars	Regular Plan			Direct Plan		
	Amount (Rs.)	NAV (Rs. per unit)	Units	Amount (Rs.)	NAV (Rs. per unit)	Units
Investment as on March 31, 2023 (A)	100,000	10	10000	100,000	10	10000
Investment as on March 31, 2024 (B)	114,000	11.4	10000	115,000	11.5	10000
Returns under each plan ((B-A)/A)%	14.00%			15.00%		

Impact of expense ratio on scheme's returns						
Particulars	Regular Plan			Direct Plan		
	Amount (Rs.)	NAV (Rs. per unit)	Units	Amount (Rs.)	NAV (Rs. per unit)	Units
Expenses other than distribution expenses charged to the scheme (in percentage terms)	1.50%			1.50%		
Distribution expenses charged to the scheme (in percentage terms)	1%			-		
Total expenses charged to the scheme (in percentage terms)	2.50%			1.50%		
Gross returns under each plan of the scheme before charging expenses (in percentage terms)	16.50%			16.50%		
Gross investment value under each plan of the scheme if no expenses were charged to the scheme	116,500			116,500		

Above illustration is a simplified calculation to show the impact of the expense charged on the performance to the scheme. In the above illustration total expense charged to the scheme has been mentioned in INR.

As per the SEBI (MF) Regulations, expense to the scheme is charged on daily basis on the daily net assets and as per the percentage limits specified in the SEBI (MF) regulations.

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme.

C. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (<https://www.boimf.in/siddisclosures/load-structure>) or may call at (1800 - 266 - 2676 & 1800 - 103 - 2263) or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Exit	<ul style="list-style-type: none"> NIL - There will be no exit load within 3 months from the date of allotment for redemption/switch out upto 10% of the units allotted. 1% - Any redemption/switch out in excess of the above mentioned limit would be subject to an exit load of 1%, if the units are redeemed/ switched out within 3 months from the date of allotment of units. NIL - There will be no exit load on any redemption/switch out after 3 months from the date of allotment of units.
Entry	No entry Load shall be charged to the Scheme.

As required under the SEBI (MF) Regulations, the fund shall ensure that the repurchase price of an open ended scheme is not lower than 95% of the Net Asset Value.

- The entire exit load (net of GST), if any shall be credited to the Scheme.

- No Entry / Exit Loads will be chargeable in case of switches made between different options of a Scheme.
- Exit Load will be computed basis the amount of redemptions made by an investor/Unitholder.
- Redemption of investments made through SIP, STP, switch or other facilities will also attract Exit Load as applicable except otherwise specified.
- In terms of SEBI circular no. SEBI/IMD/CIR No.4/ 168230/09 dated June 30, 2009, no Entry Load will be charged to any purchase applications (including additional purchases and switch-ins). Direct Applications will also not attract any Entry Load. Upfront commission shall be paid directly by the investor to the AMFI registered Distributors based on the investors' assessment of various factors including the service rendered by the distributor.
- Where investments were made directly i.e. without any distributor code, exit load will not be levied on switch of Units from Regular Plan to Direct Plan.
- No exit load shall be levied in case of switch of Units from Direct Plan to Regular Plan.
- For any change in Load structure, AMC will issue an addendum and display it on the AMC Website immediately and circulated to all Investor Service Centres for inclusion in the existing copies.
- Units issued on reinvestment of IDCW shall not be subject to exit load.
- The Trustee reserves the right to modify / alter the Load structure under the Scheme and may decide to charge a Load or revised Load or introduce a differential Load structure on the Units prospectively subject to the following:
 - Any imposition or enhancement in the Load shall be applicable on prospective investments only.
 - The addendum detailing the changes may be attached to Scheme Information Documents and key information memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
 - Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
 - The introduction of the Exit Load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such Load.

I. INTRODUCTION

A. Definitions/interpretation

For detailed description on Definitions/Interpretation, investors are requested to refer the following link on our website:

Link: <https://www.boimf.in/siddisclosures/definitions-interpretation>

B. Risk factors

(i) Standard Risk Factors

- (a) Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- (b) As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of the investment in the scheme may go up or down. As with any investment in securities, the NAV of the Units under the Scheme can go up or down, depending on the factors and forces affecting the markets. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.
- (c) Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- (d) Bank of India Business Cycle Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- (e) While the Schemes will endeavour to declare IDCW under IDCW option, however, there is no guarantee or assurance that such IDCW will be declared/paid and such declaration / payment is entirely subject to availability of distributable surplus.
- (f) The Sponsor is not responsible or liable for any loss or shortfall in Scheme's corpus arising or resulting from the operation of the Scheme, beyond the initial contribution of Rs. 1,00,000/- (Rupees One Lakh only) made by it to the Fund at the time of setting up the Mutual Fund. The Associates of the Sponsor are not responsible or liable for any loss or shortfall resulting from the operation of the Scheme. However, the asset management company and the sponsor of the mutual fund shall be liable to compensate the affected investors and/or the scheme for any unfair treatment to any investor as a result of inappropriate valuation.
- (g) The present Scheme is not a guaranteed or assured return scheme and investors in the Scheme are not being offered any guaranteed / assured return.
- (h) Statements/Observations made in this Scheme Information Document are subject to the laws of the land as they exist at any relevant point of time.
- (i) Mutual Funds and securities investments are subject to market risks and the NAVs of the units issued under the scheme may go up or down depending on the factors and forces affecting the capital markets.
- (j) Growth, appreciation, IDCW and income, if any, referred to in this Scheme Information Document are subject to the tax laws and other fiscal enactments as they exist from time to time

(ii) Scheme Specific Risk Factors

I. Risk associated with investments in Equity and Equity related instruments:

1. Equity and equity related securities are volatile and carry risk of price fluctuations on an on-going basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.
2. Investments in equity and equity related securities involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.
3. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.
4. Within the regulatory limits, the Fund Manager may choose to invest in listed or to be listed securities that offer attractive yields. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. This may however increase the risk of the portfolio. The liquidity and valuation of the scheme investments due to their holdings of listed or to be listed securities may be affected if they have to be sold prior to their target date of disinvestments.
5. Though the constituent stocks of most indexes are typically liquid, liquidity differs across stocks. Due to the heterogeneity in liquidity in the capital market segment, trades on this segment may not get implemented instantly.
6. Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.

II. Risk Factors associated with Sectoral/Thematic Schemes:

1. The Scheme will invest at least 80% of its net assets in equity and equity related securities with focus on stocks that represent the business cycle theme. The Scheme is thematic in nature, hence will be affected by the risks associated with the business cycle theme. Investing in thematic schemes is based on the premise that the scheme will seek to invest in companies belonging to a specific theme. This will limit the capability of the scheme to invest in other companies/themes. The Scheme will invest in equity and equity related securities of companies engaged in the particular theme and hence concentration risk is expected to be high. Also, as with all equity investing, there is a risk that companies in that theme will not achieve expected earnings results, or that an unexpected change in the market or within the company will occur, both of which may adversely affect investment results. Owing to higher concentration risk for thematic scheme, risk of capital loss is high. There is an element of unpredictable market cycles that could run for extended periods.

Loss of value due to obsolescence, or regulatory changes or theme not panning out as envisaged can lead to permanent loss of capital. Thus, investing in a thematic fund could involve potentially greater volatility and risk.

III. Risk associated with investments in Bonds / Debt Instruments:

1. Investments in money market instruments involve a moderate credit risk i.e. risk of an issuer's ability to meet the principal payments. Additionally, money market securities, while are fairly liquid, lack a transparent secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
2. Debt and Money market instruments may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of credit worthiness of the issuer of such instruments.
3. The liquidity of investments may be restricted by trading volumes and settlement periods. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are uninvested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. By the same token, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well-developed and liquid secondary market for debt securities, could result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of the securities held in the Scheme's portfolio.
4. The NAV of the Scheme's Units, to the extent the Scheme is invested in coupon bearing debt instruments, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of debt instruments can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of debt instruments can be expected to decline. In case of floating rate securities it depends upon the frequency of the coupon reset.
5. The liquidity of the scheme is inherently restricted by trading volumes in securities in which it invest.
6. Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options.
7. Debt instruments can either be listed on any exchange or deemed to be listed which includes securities credited in the account as part of IPO allotment or any corporate action. It has been seen over the years that the price discovery in case of listed securities is much quicker and transparent. Moreover, securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Now-a-days money market securities are fairly liquid, but lack a well-developed transparent secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold. This holds true when the Scheme is looking to purchase securities as well. Corporate debt market transactions in the primary and secondary market is an over the telephone market, which leads to poor price discovery and transparency. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible

loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

8. Investment decisions made by the Investment Manager may not always be profitable.
9. Different types of securities in which the Schemes would invest as given in the SID carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further, even among corporate bonds, bonds which are rated AAA are comparatively less risky than bonds which are AA rated.
10. Interest Rate Risk: As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long term securities generally fluctuate more in response to interest rate changes than of shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.

In the case of floating rate instruments, an additional risk could rise because of the changes in the spreads of floating rate instruments. With the increase in the spread of floating rate instruments the prices can fall and with the contraction in the spreads of the floating rate instruments the prices can rise, other parameters being unchanged. Moreover, floating rate instruments which have periodical interest rate reset carry lower interest rate risk compared to a fixed rate debt instrument. However, in a falling interest rate scenario the returns on floating rate debt instruments may not be better than those on fixed rate debt instruments

11. Liquidity or Marketability Risk: This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the quoted bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of these investments. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The length of time for settlement may affect the Scheme in the event (a) it has to meet an inordinately large number of redemption or (b) of restructuring of the Scheme's investment portfolio. Securities that are unlisted also carry a higher liquidity risk compared to listed securities.
12. Credit Risk: Credit risk or default risk refers to the risk that an issuer of a debt instruments may default (i.e., will be unable to make timely principal and interest payments on the security). However, even if no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent. However, corporate debt carries a higher risk and trade at a level higher than corresponding G-secs.

Normally, the value of a debt instruments will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default. Different types of securities in which the Scheme is invested carry different levels and types of risk. The credit risk in respect of Scheme assets portfolio thus may go up or down basis its investment pattern.

13. **Re-investment Risk:** This refers to the interest rate risk at which the intermediate cash flows received from the securities in the Scheme including maturity proceeds are reinvested. Investments in debt instruments may carry re-investment risk as interest rates prevailing

on the interest or maturity due dates may differ from the original coupon of the debt security. Consequently, the proceeds may get invested at a lower rate.

Type of Risk	Risk Mitigation Measures
Volatility	By controlling class/ sector/ issuer exposures in debt & money market instruments to control overall portfolio volatility.
Concentration	By investing in various debt instruments such as corporate and PSU bonds, TREPS/ Repo and money market instruments of various issuers which will be from different industries/sectors.

14. Risk Factor associated with investing in Securities Segment and Tri-party Repo trade settlement:

Clearing Corporation of India Ltd. ('CCIL') is providing clearing and settlement services, for Triparty Repo trades in Government Securities, under its Securities Segment. CCIL would act as a Central Counterparty to all the borrow and lend Triparty Repo trades received by it for settlement. CCIL would also be performing the role responsibilities of Triparty Repo Agent, in terms of Repurchase transactions (Repo) (Reserve Bank) Directions, 2018 as amended from time to time. CCIL would settle the Triparty Repo trades, in terms of its Securities Segment Regulations.

The funds settlement of members is achieved by multilateral netting of the funds position in Triparty Repo with the funds position in Outright and Market Repo and settling in the books of RBI for members who maintain an RBI Current Account. In respect of other members, funds settlement is achieved in the books of Settlement Bank. Securities settlement for Triparty Repo trades shall be achieved in the Gilt Account of the Member maintained with CCIL. Securities obligation for outright and market repo trades shall be settled in the SGL / CSG account of the Member with RBI.

Bank of India Mutual Fund is a member of securities segment and Tri-party Repo trade settlement of the CCIL. Since all transactions of the Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL, it reduces the settlement and counterparty risks considerably for transactions in the said segments.

To mitigate the potential losses arising in case any member defaults in settling the transactions routed through CCIL, CCIL maintains a Default Fund. CCIL shall maintain two separate Default Funds in respect of its securities segment, one to meet the losses arising out of any default by its members from outright and repo trades and other for meeting losses arising out of any default by its members from Triparty Repo trades.

In case any clearing member fails to honor his settlement obligations, the Default Fund is utilized to complete the settlement applying the Default Waterfall Sequence. As per the said waterfall mechanism, after the defaulter's margins and defaulter's contribution to default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution, if there is still a loss to be met, then contribution of non-defaulting members to Default Fund is utilized to meet the said loss.

The Scheme is subject to the risk of losing initial margin and contribution to Default Fund in the event of failure of any settlement obligation. Further the Scheme's contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

Further, CCIL periodically prescribes a list of securities eligible for contribution as collaterals by members. Presently, all Central Government Securities and Treasury Bills are accepted as collaterals by CCIL. The above risk factor may undergo a change in case the CCIL notifies securities other than Government of India Securities as eligible for contributions as collateral.

15. **Repurchase Risk:** The Scheme is open-ended. To provide liquidity to the investors, the Fund proposes to provide repurchase facility in the Scheme on every Business Day.
16. **Performance Risk:** Performance of the Scheme may be impacted with changes in factors which affect the equity market and debt market.
17. **Legislative Risk:** This is the risk that a change in the tax code could affect the value of taxable or tax exempt interest income.
18. **Duration Risk:** Debt instruments of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. Thus any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security.
19. **Counterparty Risk:** This is the risk of failure of counterparty to the transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the Scheme in case of counterparty default.
20. **Inflation Risk:** Inflation causes tomorrow's currency to be worth less than today's; in other words, it reduces the purchasing power of a bond investor's future interest payments and principal, collectively known as "cash flows." Inflation also leads to higher interest rates, which in turn leads to lower bond prices. Inflation indexed securities such as Treasury Inflation Protection Securities (TIPS) are structured to remove inflation risk.
21. **Basis Risk:** The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.
22. **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
23. **Settlement Risk:** Debt instruments run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

24. **Pre-payment Risk:** Certain debt instruments give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

IV. Risk associated with investments in Derivatives:

- Counter Party Risk: This is the risk of default of obligations by the counter party.
- Market risk: Derivatives carry the risk of adverse changes in the market price.
- Illiquidity risk: The risk that a derivative cannot be sold or purchased quickly enough at a fair price, due to lack of liquidity in the market.
- Basis Risk: the risk that the movements in swap rates does not actually reflect the expected movement in benchmark rates, thus, creating a mismatch with what was intended.

The Fund may use permitted derivative instruments like exchange traded options and futures or other derivative instruments as may be permitted from time to time.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability to identify such opportunities as well as to manage risks arising thereby. Identification and execution of the strategies to be pursued involve uncertainty and investment decisions may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.

Derivative investments carry certain risks and issues arising out of such dealings. The risks associated with the use of derivatives - either for hedging or for portfolio balancing - are different from, and possibly greater than, the risks associated with investing directly securities and other traditional investments.

Certain other risks, one or more, that may arise consequent to use of derivatives are: risk of mispricing or improper valuation of derivatives, credit risk arising out of counterparty failing to honour its commitment, liquidity risk where the derivatives cannot be sold at prices that reflect the underlying assets, rates and indices, and price risk where the market price may move in adverse fashion.

Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to manage the risks as a result of the possible failure of the counterparty to comply with the terms of the derivative contract.

Risk Associated with Covered Call Strategy:

- The underlying security may fall by more than the option premium earned, thereby exposing the strategy to downside risks.
- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

V. Risk associated with Securities Lending:

The securities forming assets of the Scheme may be lent in accordance with the prevailing securities lending Regulations. The leading to arising of certain risks associated with the securities lending activity including counter party risk, possible loss of rights to the collateral put up by the borrower of the securities, inability of the approved intermediary to return the securities, timely or otherwise, deposited by the lender and likely loss of corporate benefits accruing to the lender in respect of the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

VI. Risks associated with transactions in units through Stock Exchange Mechanism:

In respect of transactions in Units of the Scheme through NSE and/ or BSE or any other recognised stock exchange allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by NSE, BSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by NSE, BSE or such other recognized exchange in this regard.

VII. Risk Factors Associated with Investments in REITs and InvITs:

1. **Market Risk:** REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/ Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures.
2. **Liquidity Risk:** As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk.
3. **Reinvestment Risk:** Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or IDCW pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns. The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

VIII. Risks associated with Segregated Portfolio:

1. Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
2. Security(ies) held in segregated portfolio may not realize any value.
3. Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

IX. **Redemption Risk:**

As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Fund for redemption of Units may be significant in the event of an inordinately large number of redemption requests or a restructuring of the Scheme.

C. **Risk mitigation strategies**

Risk management is an integral part of the investment process. In line with Para-no 4.3.1 of SEBI Master Circular, the AMC has incorporated adequate safeguards for controlling risks in the portfolio construction process, which would be periodically evaluated. Online monitoring of various exposure limits are done by the Front Office System. The system incorporates all the investment restrictions as per SEBI guidelines and 'soft' warning alerts at appropriate levels for preemptive monitoring.

The system also enables identifying & measuring the risk through various risk measurement tools and analyzes the same so as to act in a preventive manner. In Addition to minimize risk for equity schemes, following steps are taken:

1. **Liquidity risks:** The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. Liquidity Risk can be partly mitigated by diversification, staggering of maturities as well as internal risk controls that lean towards purchase of liquid securities.
2. **Interest Rate Risk:** Changes in interest rates affect the prices of bonds. If interest rates rise the prices of bonds fall and vice versa. A well-diversified portfolio may help to mitigate this risk.
3. **Volatility risks:** There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification. To that extent the Volatility risk will be mitigated in the scheme.
4. **Credit Risks:** Credit risk shall be mitigated by investing in rated papers of the companies having the sound back ground, strong fundamentals, and quality of management and financial strength of the Company.

X. INFORMATION ABOUT THE SCHEME

A. **Where will the scheme invest**

Detailed description of the instruments (including overview of debt markets in India, if applicable) mentioned in Section I.

B. What are the investment restrictions?

1. A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and Board of Directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills:

Provided further that investments within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board:

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.]

A mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of SEBI (MF) Regulations.

2. A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments:

Provided that Mutual Fund Schemes may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by the Board from time to time:

Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the Board:

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by the Board from time to time:

3. No mutual fund under all its schemes should own more than ten per cent of any company's paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.]

4. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if,—
 - (a) such transfers are done at the prevailing market price for quoted instruments on spot basis.
[Explanation.—“Spot basis” shall have same meaning as specified by stock exchange for spot transactions;]
 - (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

5. A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.

Provided that this clause shall not apply to any fund of funds scheme.

6. Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.

Provided that a mutual fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board.

Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

7. Every mutual fund shall get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long-term nature.
8. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to such Guidelines as may be specified by the Board.
9. No mutual fund [scheme] shall make any investment in,—
 - (a) any unlisted security of an associate or group company of the sponsor; or
 - (b) any security issued by way of private placement by an associate or group company of the sponsor; or
 - (c) the listed securities of group companies of the sponsor which is in excess of 25 per cent of the net assets.

Provided that for the private equity fund or a pooled investment vehicle or a pooled investment fund acting as sponsor of mutual funds, the associate or group company shall also include,-

- (a) associate or group company of the manager of any pooled investment vehicle; or

- (b) investee companies in which the shareholding of ten percent or more is held by the schemes or funds managed by manager of the pooled investment vehicle; or
- (c) any investee company in which the pooled investment vehicle holds more than ten percent shareholding or where the directors of the pooled investment vehicle or corporate sponsor has representation on the board or right to nominate representatives on the board.

10. No scheme of a mutual fund shall make any investment in any fund of funds scheme.

11. No mutual fund scheme shall invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any company:

Provided that, the limit of 10 per cent shall not be applicable for investments in case of index fund or exchange traded fund or sector or industry specific scheme.

12. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.

13. A fund of funds scheme shall be subject to the following investment restrictions:

- (a) A fund of funds scheme shall not invest in any other fund of funds scheme;
- (b) A fund of funds scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the offer document of fund of funds scheme.

14. A mutual fund may invest in the units of REITs and InvITs subject to the following:

- (a) No mutual fund under all its schemes shall own more than 10% of units issued by a single issuer of REIT and InvIT; and
- (b) A mutual fund scheme shall not invest -
 - i. more than 10% of its NAV in the units of REIT and InvIT; and
 - ii. more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

Provided that the limits mentioned in sub-clauses (i) and (ii) above shall not be applicable for investments in case of index fund or sector or industry specific scheme pertaining to REIT and InvIT

15. The Scheme shall not make any investment in : a) Any unlisted security of an associate or group company of the Sponsor; or b) Any security issued by way of private placement by an associate or group company of the sponsor; or c) The listed securities of group companies of the Sponsor which is in excess of 25% of the assets.

16. Total exposure of the scheme in a particular sector (excluding investments in Bank CDs, TREPS, G-Secs, T-Bills, short terms deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and such other instruments if any, as may be specified by SEBI from time to time) shall not exceed 20% or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time, unless the scheme has specifically been exempted from the requirement by SEBI.

An additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs);

Further, an additional exposure of 5% of the net assets of the scheme shall be allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/exposure in HFCs shall not exceed 20% of the net assets of the Scheme.

Note: The sector classification shall be basis the data provided by Association of Mutual Fund in India.

17. The Scheme will comply with following exposure limits while participating in repo in corporate debt securities or such other limits as may be prescribed by SEBI from time to time:

- The gross exposure to repo transactions in corporate debt securities shall not be more than 10% of the net assets of the scheme.
- Further the amount lent to counter-party under repo transaction in corporate debt securities will be included in single issuer debt instrument limit.
- The cumulative gross exposure through equity, debt, derivative positions (including commodity and fixed income derivatives), repo transactions and credit default swaps in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/ assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.
- In case the Scheme borrows under repo in corporate debt securities, then such borrowing together with any other borrowing shall not exceed 20% of the net asset of that Scheme and tenor of borrowing shall not exceed six months.

18. The Scheme shall not invest (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) more than 20% of net assets in the Group. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.

For this purpose, Group" means a group as defined in clause (b) of the Explanation to Section 5 of the Competition Act, 2002 (12 of 2003)

Further, limit for investment in debt and money market instruments of group companies of sponsor and AMC is 10% of the net assets of the scheme which can be extended to 15% with the prior approval of the Board of Trustees.

19. The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of CRAs between short term and long term ratings, the most conservative long term rating shall be

taken for a given short term rating. Exposure to government money market instruments such as TREPS on G-Sec/ T-bills shall be treated as exposure to government securities. Provided that, such limit shall not be applicable for investments in government securities, treasury bills and Tri-Party Repos on Government securities or treasury bills.

20. The Fund can invest in securities that are rated by CRISIL and ICRA and other independent credit rating agencies.
21. Further, in terms of para 1.10.3 of SEBI master circular dated June 27, 2024, the Mutual Fund /AMC shall make investments out of the NFO proceeds only on or after the close of the NFO period. Mutual Funds/AMCs are allowed to deploy the NFO proceeds in triparty repo on Government securities or treasury bills before the closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in triparty repo on Government securities or treasury bills during the NFO period. The appreciation received from investment in triparty repo on Government securities or treasury bills shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the scheme during the NFO period, the interest earned upon investment of NFO proceeds in triparty repo on Government securities or treasury bills shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.
22. The Mutual Fund shall subject to SEBI (MF) Regulations settle its transactions only through dematerialised securities except such instruments which are to be transacted only in physical form. Further, all transactions in government securities shall also be in dematerialised form.

23. Derivatives exposure limits:

In accordance with para 12.25 of SEBI master circular dated June 27, 2024, the following exposure limits for investment in derivatives will be applicable to the Scheme:

- (1) The cumulative gross exposure through Equity, Equity Derivatives, Debt, Corporate Debt, REITs, InVITs, Money Market securities and derivative positions shall not exceed 100% of the net assets of the scheme. However, cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.
- (2) The Schemes shall not write options or purchase instruments with embedded written options.
- (3) The total exposure related to option premium paid shall not exceed 20% of the net assets of the scheme.
- (4) Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - a) Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b) Hedging positions shall not be taken for existing derivative positions. Exposure due to such positions shall be added and treated under gross cumulative exposure limits as mentioned under point 1.

- c) Any derivative instrument used to hedge shall have the same underlying security as the existing position being hedged.
- d) The quantity of underlying associated with the derivative position taken for hedging purposes shall not exceed the quantity of the existing position against which hedge has been taken.
- (5) Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under gross cumulative exposure limits as mentioned under point 1.
- (6) (a) The Scheme may enter into plain vanilla Interest Rate Swaps (IRS) for hedging purposes. The value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme.
- (b) In case of participation in IRS is through over the counter transactions, the counter party has to be an entity recognized as a market maker by RBI and exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme. However, if mutual funds are transacting in IRS through an electronic trading platform offered by the Clearing Corporation of India Ltd. (CCIL) and CCIL is the central counterparty for such transactions guaranteeing settlement, the single counterparty limit of 10% shall not be applicable.”
- (7) Each position taken in derivative shall have an associated exposure as defined below. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

- (8) Derivatives transactions shall be disclosed in the half-yearly portfolio / annual report of the schemes in line with the requirements under SEBI (MF) Regulations.

The Trustee may alter the above restrictions from time to time to the extent that changes in the SEBI (MF) Regulations may allow or as deemed fit in the general interest of the unit holders. All investment restrictions shall be applicable at the time of making investment.

The Trustee /AMC may alter the above stated limitations from time to time, and also to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make their investments in the full spectrum of permitted investments in order to achieve their investment objective.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund does not follow any internal norms vis-à-vis limiting exposure to a particular scrip or sector etc.

H. Any other disclosure in terms of Consolidated Checklist on Standard Observations:

1. Requirement of minimum investors/ investment in the Scheme (Applicability for an open-ended scheme):

The Scheme/ plan (at portfolio level) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/ Plan(s). In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF Regulations) would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. For details, kindly refer SAI.

2. Special Considerations:

- (A) Prospective investors in this Scheme should educate themselves or seek professional advice on:
- a) Legal requirements or restrictions relating to the acquisition, holding, disposal, or redemption of Units within their jurisdiction of nationality, residence, ordinary residence and domicile or under the laws of any jurisdiction to which they are subject; and
 - b) Tax provisions on investments in the Scheme, capital gains, and other tax consequences relevant to their acquisition, holding or disposal, whether by way of sale or redemption of Units.
- (B) Prospective investors should not construe the contents hereof as advice relating to legal, taxation or investment matters and are advised to consult their own professional advisor(s) relating to the subscription, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of Units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences within their jurisdiction of nationality, residence, domicile etc. or under the laws of any jurisdiction to which they are subject to.
- (C) The tax benefits described in this SID / in the SAI are as available under the prevailing taxation laws, which or whose interpretation may change from time to time. As is the case with any investment, there can be no guarantee that the current tax position or the tax position prevailing at the time of an investment in the Scheme will not undergo change. In view of the individual nature of tax consequences, each Unit holder is advised to consult his / her / their own professional tax advisor.
- (D) The AMC or its Sponsor or Shareholders or their associates, group entities may either directly or indirectly invest in this Scheme and / or any other Scheme, present or future, and such investment could be substantial. If these entities decide to offer a substantial portion of such investment for repurchase/redemption, it may have an adverse impact on the NAV of Units.
- (E) Neither this SID nor the Units being offered have been registered in any jurisdiction outside India. The distribution of this SID in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of this SID are required to inform themselves about, and to observe, any such restrictions, as may be applicable. This SID does not constitute an offer or solicitation to any person within such jurisdiction and further are not being marketed in any such jurisdiction. The

Trustee may compulsorily redeem any Units held directly or beneficially in contravention of these prohibitions.

- (F) It is the responsibility of any person in possession of this SID and of any person wishing to apply for Units pursuant to this SID to be informed of and to observe, all applicable laws and Regulations of such relevant jurisdiction including not subscribing to Units if so prohibited by their home jurisdiction.
- (G) The Scheme may disclose details of the investor's account and transactions there under to intermediaries whose stamp appears on the investor's application form. Additionally, the Scheme may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Scheme may also disclose such details to regulatory and statutory authorities / bodies as may be required or necessary as per provisions of law.
- (H) Right to limit redemptions: The Board of AMC and Trustee, may in the general interest of the Unit holders of the Scheme, keeping in view circumstances / unsure conditions as mentioned under para 1.12 of SEBI Master circular dated June 27, 2024, limit the total number of Units which may be redeemed on any Business Day. For details please refer "Right to Limit Redemption".
- (I) The Scheme will dispatch redemption proceeds within 3 working Days from the acceptance of the Redemption request.
- (J) Pursuant to the Provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, failure to provide required documentation, information, etc. the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND and / or to freeze the folios of the investor(s), reject any application(s) / allotment of units and effect mandatory redemption of unit holdings of the investor(s) at the applicable NAV subject to payment of exit load, if any.

(K) Indicative yield/ portfolio
