Cash & cash equivalents and Money Market instruments and/or Schemes which invest in the money market securities or Liquid Schemes#	0	5	Low to Medium

Cash Equivalents include Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

#The Scheme may invest upto 5% net assets in money market / liquid schemes without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same management company or in schemes under the management of any other AMC shall not exceed 5% of the NAV of the Mutual Fund in accordance with Clause 4 of Seventh Schedule of SEBI (Mutual Funds) Regulations, 1996.

The Scheme will not invest in securitized debt, ADR, GDR, Foreign Securities, ReITs and InVITS, Fund of Fund Scheme, Credit default swaps, Debt Instruments with special features (AT1 and AT2 Bonds), Debt Instruments with SO / CE, nor will it engage in short selling and Repo in corporate debt.

The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error. Under normal circumstances, the AMC shall endeavor that the Tracking Error of the Scheme shall not exceed 2% per annum. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

Exposure to equity derivatives of the index itself or its constituent stocks may be undertaken when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period. The notional exposure of the Scheme in Equity Derivative instruments shall be restricted to 20% of total assets of equity portfolio. This will also include various derivative and hedging products to reduce the risk of the portfolio, in the manner permitted by SEBI from time to time. Such exposure to derivatives will be rebalanced within 7 days.

The cumulative gross exposure through Equity shares, Money Market Instruments and Derivatives position shall not exceed 100% of the net assets of the Scheme as per Clauses 12.24 and 12.25 of SEBI Master Circular dated May 19, 2023.

As per SEBI Letter dated 3rd November 2021 Cash and cash equivalents having residual maturity of less than 91 Days are not considered for the purpose of calculating gross exposure limit.

The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty (here counterparty means an intermediary/broker through whom we deal in securities) or such other limits as may be permitted by SEBI from time to time after seeking necessary approval, whenever required.

Rebalancing of deviation due to short term defensive consideration:

Any alteration in the investment pattern will be for a short term on defensive considerations as per clause 1.14.1.2.b of SEBI Master Circular dated May 19, 2023; the intention being at all times to protect the interests of the Unit Holders and the Scheme shall rebalance the portfolio within 7 calendar days.

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Portfolio rebalancing in case of passive breach:

In line with Clause 3.6.7 of SEBI Master Circular dated May 19, 2023, in case of change in constituents of the index due to periodic review, the portfolio of Scheme shall be rebalanced within 7 calendar days. Further, any transactions undertaken in the portfolio of Index Schemes in order to meet the redemption and subscription obligations shall be done ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

However, at all times the portfolio will adhere to the overall investment objectives of the Scheme. However the same will be rectified at the earliest opportunity as may be available, but not later than 7 calendar days, to minimize the tracking error.

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 calendar days from the date of allotment/listing. Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 read with sub-regulation (26) of Regulation 25 of the SEBI Regulations.

B. WHERE WILL THE SCHEME INVEST?

Sr. No.	Instruments in which the scheme will invest
1	Securities of companies constituting Nifty 500 Equal Weight Index
2	Equity Derivatives of the index itself or its constituent stocks
3	Cash & Cash Equivalents including Government Securities, T-Bills and Repo on Government Securities
4	Money Market Instruments
5	Schemes which invest in the money market securities or Liquid Schemes

The Scheme shall invest in any other instruments as may be permitted by SEBI/RBI from time to time.

Kindly refer detailed definitions and applicable regulations/guidelines for each instruments in the Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

Nippon India Nifty 500 Equal Weight Index Fund is a passively managed index fund which will employ an investment approach designed to track the performance of Nifty 500 Equal Weight TRI. The Scheme seeks to achieve this goal by investing in securities constituting the Nifty 500 Equal Weight Index in same proportion as in the Index. The AMC does not make any judgments about the investment merit of Nifty 500 Equal Weight Index nor will it attempt to apply any economic, financial or market analysis. This would be done by investing in all the stocks comprising the Nifty 500 Equal Weight Index in approximately the same weightage that they represent in Nifty 500 Equal Weight Index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in money market instruments to meet the liquidity and expense requirements.

In accordance with Clause 3.4 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the underlying index shall comply with the portfolio concentration norms as prescribed.

Trading in derivatives

The scheme intends to use derivatives for the purpose of hedging and portfolio rebalancing as may be permitted by Regulations from time to time. Derivative transactions that can be undertaken by the Scheme include a wide range of instruments, including, but not limited to

- Futures
- Options
- Swaps
- Any other instrument, as may be permitted by statutory authorities from time to time.

Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on Stock Exchanges whereas OTC derivative transactions are generally structured between two counterparties. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Strategies that employ index futures

- a) The fund has an existing equity portion invested in a basket of stocks. In case the fund manager has a view that the equity markets are headed downwards, the fund can then hedge the exposure to equity either fully or partially by initiating short futures positions in the index. A similar position in the long direction can also be initiated by the fund to hedge its position of cash and permissible equivalents. The extent to which this can be done is determined by existing guidelines.
- b) To the extent permissible by extant Regulations the scheme can initiate a naked short position in an underlying index future traded on a recognized stock exchange. In case the nifty near month future contract trading at say, 1850, and the fund manager has a view that it will depreciate going forward, the fund can initiate a sale transaction of nifty futures at 1850 without holding a portfolio of equity stocks or any other underlying long equity position. Once the price falls to 1800 after say, 20 days the fund can initiate a square-up transaction by buying the said futures and book a profit of 50. Correspondingly the fund can take a long position without an underlying cash/ cash equivalent subject to the extant Regulations.

Strategies that employ Stock specific Futures

Individual stock futures are also available in the Indian Equity Markets. Stock futures trade either at a premium or at discount to the spot prices, the level of premium generally reflects the cost of carry. Stock specific issues may have a bearing on futures as speculators may find futures as a cost-effective way of executing their view on the stock. However such executions usually increase the premium/discount to the spot significantly, thereby giving rise to arbitrage opportunities for a fund.

- a) Selling spot and buying future : In case the fund holds the stock of a company at say Rs. 1000 while in the futures market it trades at a discount to the spot price say at Rs. 980 then the fund may sell the stock and buy the futures. On the date of expiry of the stock future, the fund may reverse the transactions (i.e. Buying at Spot & Selling futures) and earn a risk-free Rs. 20/- (2% absolute) on its holdings. As this can be without any dilution of the view of the fund on the underlying stock the fund can still benefit from any movement of the price in the northward direction, i.e. if on the date of expiry of the futures, if the stock trades at 1100 which would be the price of the futures too, the fund will have a benefit of Rs. 100/- whereby the fund gets the 10% upside movement together with the 2% benefit on the arbitrage, and thus getting a total return of 12%.
- b) Buying spot and selling future :Where the fund holds the stock of a company trading in the spot market at Rs 1000 while it trades at Rs. 1020/- in the futures market then fund may buy the stock at spot and sell in the futures market thereby earning Rs 20. In case of adequacy of cash with the fund, this strategy may be used to enhance returns of the Scheme which was otherwise sitting on cash.
- c) Buying stock future: Where the scheme wants to initiate a long position in a stock whose spot price is at say, Rs.1000 and futures is at 980, then the fund may just buy the futures contract instead of the spot thereby benefiting from a lower cost option.
- d) In case the fund has a bearish view on a stock which is trading in the spot market at Rs.1000/- and the futures market at say Rs.980/-. The fund can express such a view subject to extant the Regulations by initiating a short position in the futures contract. In case the is right and the futures price depreciates to say 900/- the fund can square up the short position thereby earning a profit of Rs. 80/-

Options

Option contracts are of two types - Call and Put; the former being the right, but not obligation, to purchase a prescribed number of shares at a specified price before or on a specific expiration date and the latter being the right, but not obligation, to sell a prescribed number of shares at a specified price before or on a specific expiration date. The price at which the shares are contracted to be purchased or sold is called the strike price. Options that can be exercised on or before the expiration date are called American Options, while those that can be exercised only on the expiration date are called European Options. Option contracts are designated by the type of option, name of the underlying, expiry month and the strike price. Numerical examples of Options Call Option (Buy): The fund buys a call option at the strike price of say Rs.1000 and pays a premium of say Rs. 50, the fund would earn profits if the market price of the stock at the time of expiry of the option is more than 1050 being the total of the strike price and the premium thereon. If on the date of expiry of the option the stock price is below Rs 1000, the fund will not exercise the option while it loses the premium of Rs 50.

Put Option (Buy): The fund buys a Put Option at Rs 1000 by paying a premium of say Rs 50. If the stock price goes down to Rs. 900, the fund would protect its downside and would only have to bear the premium of Rs 50 instead of a loss of Rs 100 whereas if the stock price moves up to say Rs. 1100 the fund may let the Option expire and forego the premium thereby capturing Rs. 100 upside after bearing the premium of Rs50.

The above positions can be initiated in both index based options as well as stock specific options. Permissible strategies involving index options and stock specific options would be the same as that of index futures and stock specific futures respectively.

The AMC retains the right to enter into such derivative transactions as may be permitted by the applicable Regulations from time to time.

Debt Derivatives

In terms of Circular No. MFD.BC.191/07.01.279/1999-2000 and PD.BC.187/07.01.279/1999-2000 dated November 1, 1999 and July 7, 1999 respectively issued by Reserve Bank of India and Clause 7.6.1 of SEBI Master circular dated May 19, 2023 permitting participation by Mutual Funds in Interest Rate Swaps and Forward Rate agreements, the Fund will use derivative instruments for the purpose of hedging and portfolio balancing. The AMC would undertake the same for similar purposes only.

Interest Rate Swaps (IRS)

An IRS is an agreement between two parties to exchange stated interest obligations for an agreed period in respect of a notional principal amount. The most common form is a fixed to floating rate swap where one party receives a fixed (predetermined) rate of interest while the other receives a floating (variable) rate of interest.

Forward Rate Agreement (FRA)

A FRA is basically a forward starting IRS. It is an agreement between two parties to pay or receive the difference between an agreed fixed rate (the FRA rate) and the interest rate (reference rate) prevailing on a stipulated future date, based on a notional principal amount for an agreed period. The only cash flow is the difference between the FRA rate and the reference rate. As is the case with IRS, the notional amounts are not exchanged in FRAs.

Portfolio Turnover

Portfolio turnover is the term used by the Fund for measuring the amount of trading that occurs in a Scheme's portfolio during a specified period of time. The Scheme is an open ended Scheme. It is therefore expected that there would be a number of Subscriptions and Redemptions on a daily basis. There may be frequent transaction to buy and sell the Securities resulting in increase in transaction cost. At the same time frequent transactions may increase the profits and which can offset the increase in cost. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, the Fund Manager will endeavour to optimize the portfolio turnover to minimize risk and maximize gains while keeping in mind the cost associate with such transaction.

Portfolio turnover is defined as the lower of sales or purchases divided by the average corpus during a specified period of time. Generally, turnover will be confined to rebalancing of portfolio on account of change in the composition and corporate actions of the underlying index.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Nifty 500 Equal Weight TRI

The scheme is an index fund. The composition of the benchmark is such that it is most suited for comparing performance of the scheme.

Total Return variant of the index (TRI) will be used for performance comparison.

Part III - OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) of the Units will be determined daily or as prescribed by the Regulations. The NAV shall be calculated in accordance with the following formula, or such other formula as may be prescribed by SEBI from time to time.

NAV =	Market/Fair Value of Scheme's Investments + Receivables + Accrued Income + Other Assets - Accrued Expenses- Payables- Other Liabilities
	Number of Units Outstanding

Rounding off policy for NAV

Net Asset Value of the Units in the Scheme is calculated in the manner provided in this Scheme Information Document or as may be prescribed by Regulations from time to time. The NAV will be computed upto four decimal places.

Illustration for computation of NAV:

Particulars	Amount (In INR)
Assets	
Market/Fair Value of Scheme's Investments	1,00,000
Current Assets	
Receivables	1,500
Accrued Income	500
Other Assets	1,000
Total Assets (A)	1,03,000
Current Liabilities	
Accrued Expenses	1,100
Payables	300
Other Liabilities	100

Total Liabilities (B)	1,500
Net Assets (C) (A – B)	1,01,500
Units Outstanding (D)	10,000
NAV per unit (C/D)	10.1500

The mutual fund shall ensure that the repurchase price of the scheme is not lower than 95% of the Net Asset Value.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. AMC will ensure that no NFO expenses will be charged to the Scheme

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC and other expenses as given in the table below:

The AMC has estimated that the following % of the daily net assets of the scheme will be charged to the scheme as expenses. The AMC would update the current expense ratios on the website of the mutual fund at least three working days prior to the effective date of the change.

Further Actual Expense ratio will be disclosed at the following link

<https://mf.nipponindiaim.com/investor-services/downloads/total-expense-ratio-of-mutual-fund-schemes>

Estimated Expense Structure

Other Expenses #	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (b)	
Additional expenses under Section 52 (6A) (b) for gross new inflows from specified investors and cities	Upto 0.30%

(# Expenses charged under the said parameters shall be in line with the Regulation 52 of SEBI (MF) Regulations or such other basis as specified by SEBI from time to time.)

Illustration – Impact of Expense Ratio on the Returns

Particulars	Regular Plan/Other than Direct Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Returns before Expenses	1,500	1,500
Expenses other than Distribution Expenses	150	150
Distribution Expenses	50	-
Returns after Expenses at the end of the Year	1,300	1350
Returns	13.00%	13.50%

Note: Please note that the above is an approximate illustration of the impact of expenses on the returns, where the Returns before Expenses have been simply reduced to the extent of the expenses. The actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets..

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se as per actual but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations. The purpose of the above table is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Mutual funds /AMCs may charge Goods & Service Tax on investment and advisory fees to the scheme in addition to the maximum limit as prescribed in regulation 52 of the SEBI Regulations.

Goods & Service Tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit as per regulation 52 of the SEBI Regulations.

Mutual Funds/AMCs will annually set apart 1 basis points on daily net assets within the maximum limit as per regulation 52 of the SEBI Regulations for investor education and awareness initiatives.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, and no commission shall be paid from such plan. Further, the NAV of Direct Plan shall be different from the NAV of Regular Plan given the two plans carry different Total Expense Ratio (TER).

However, no Investment Management fees would be charged on NAM India's investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of NIMF on 1st April each year or a sum of Rs.5,00,000/- which ever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

The investors in the Nippon India 500 Equal Weight Index Fund will be charged a maximum of 1.00% of the daily net assets excluding additional expenses as allowed by sub regulation 6A of regulation 52.

The above expenses are fungible within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on expenses and AMC is free to allocate them within the overall TER.

In terms of Regulation 52(1) of SEBI (Mutual Funds) Regulations, 1996, all scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, will necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses shall be paid out of AMC books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower. List of such miscellaneous expenses may be provided by AMFI in consultation with SEBI or as specified/amended by AMFI/SEBI from time to time.

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub regulation 6A, namely-

- (a) Brokerage and Transaction costs (Including GST) incurred for the execution of trades may be expensed out in the scheme to the extent of 0.12 per cent of the value of trades in case of cash market transactions and 0.05 per cent of the value of trades in case of derivatives transactions. Any payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction costs, if any) shall be borne by the AMC or by the Trustee or Sponsors.;
- (b) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such investors and cities as specified by SEBI from time to time are at least -
 - (i) 30 per cent of gross new inflows in the scheme, or;
 - (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:

Note: In line with AMFI communication no.35P/MEM-COR/85-a/2022-23 dated March 2, 2023 and SEBI letter no. SEBI/H0/IMD/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023, the B-30 incentive structure is kept in abeyance from March 1, 2023, till any further guidelines regarding necessary safeguards are issued by SEBI

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis:

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment;

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI. Expenses on an ongoing basis will not exceed the percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

The recurring expenses incurred in excess of the limits specified by SEBI (MF) Regulations will be borne by the AMC or by the Trustee or the Sponsor

D. LOAD STRUCTURE

Load is an amount which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. For the current applicable structure, please refer to the website of the AMC mf.nipponindiaim.com or may call at Customer Service Centre 1860-266-0111 (charges applicable), and Investors outside India can call at 91-22-69259696 (charges applicable) or your distributor.

Type of Load	Load chargeable (as a % of NAV)
Exit	NIL Exit load if charged, by NIMF to the unit holders shall be credited to the scheme immediately net of Goods & Service Tax, if any

A. Definitions/interpretation

B. Risk Factors

SCHEME SPECIFIC RISK FACTORS

(a) Risks associated with investing in Equities

Tracking errors are inherent in any index fund and such errors may cause the schemes to generate returns which are not in line with the performance of the Nifty 500 Equal Weight Index or one or more securities covered by / included in the Nifty 500 Equal Weight Index and may arise from a variety of factors. Delayed realisations, cash for redemptions can result into tracking error, including transactions costs of investments etc.

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV trading price, yield, total return and/or its ability to meet its objectives.

- The NAV of the units is closely related to the value of stocks that form a part of the benchmark index. The value of this will react to stock market movements and may result in changes in the NAV of units under the scheme. There could also be movements in the scheme's NAV due to changes in interest rates, macro-economic and political developments and over longer periods during market downturns;
- Tracking error may have an impact on the performance of the scheme. However, NAM India would monitor the tracking difference of the Scheme on an ongoing basis and would seek to minimize tracking difference to minimum practicable. The Scheme is a passively managed scheme and provides exposure to the benchmark and tracking its performance. The Schemes performance may be affected by a general price decline in the stock markets. The Scheme invests in the stocks comprising the index regardless of their investment merit. The Mutual Fund does not attempt to take defensive positions in declining markets.
- As the scheme proposes to invest not less than 95% of the net assets in securities comprising of Nifty 500 Equal Weight Index, any deletion of stocks from or addition to in Nifty 500 Equal Weight Index will require liquidation or acquisition of such stocks at the prevailing market prices.
- The performance of the Nifty 500 Equal Weight Index will have a direct bearing on the performance of the scheme. Hence any composition change by virtue of weightage or stocks selection will have an impact on the scheme.
- The Index reflects the prices of securities at a point in time, which is the price at close of business day on the stock exchange. The Scheme, however, may at times trade these securities at different points in time during the trading session and therefore the prices at which the Plan trade may not be identical to the closing price of each scrip on that day on the BSE / NSE. In addition, the Scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance, from BSE / NSE closing prices.

b) Risk specific to investing in securities forming part of Nifty 500 Equal Weight Index and risks:-

Nippon India Nifty 500 Equal Weight Index Fund is passively a managed Index Scheme i.e. the amount collected under the scheme is invested in securities of companies comprising the underlying index in the same weightages as they have in the underlying index. The composition of the underlying index is subject to changes that may be affected periodically by the Index Service Provider. Performance of the underlying index will have a direct bearing on the performance of the scheme. The extent of the Tracking error may have an impact on the performance of the scheme.

Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

Corporate Action and Proxy Voting

From time to time, the issuer of a Security held in the Scheme may initiate a corporate action relating to that Security. Corporate actions relating to equity Securities may include, among others, an offer to purchase new shares, or to tender existing shares, of that Security at a certain price. Corporate actions relating to debt Securities may include, among others, an offer for early redemption of the debt Security, or an offer to convert the debt Security into stock. Certain corporate actions are voluntary, meaning that the Scheme may only participate in the corporate action it elects to do so in a timely fashion. Participation in certain corporate actions may enhance the value of the Scheme. In cases where the Fund or the Fund Manager receives sufficient advance notice of a voluntary corporate action, the Fund Managers will exercise their discretion, in good faith, to determine whether the Scheme will participate in that corporate action. If the Fund Managers do not receive sufficient advance notice of a voluntary corporate action, the Fund Managers acting on behalf of the Scheme may not be able to timely elect to participate in that corporate action. Participation or lack of participation in a voluntary corporate action may result in a negative impact on the value of the Scheme.

The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors.

The AMC may at its discretion exercise or procure the exercise of voting or other rights which may be exercisable in relation to Securities held by the Scheme, or at its discretion, elect not to exercise or procure the exercise of such voting or other rights. In relation to the exercise of such rights the AMC has established guidelines for the exercise of voting or other rights wherein it is stated that for passive funds / ETFs we will generally be abstaining on resolutions.

(c) Risks relating to Investing in Indian Markets

Investments in India may be affected by political, social, and economic developments affecting India, which may include changes in exchange rates and controls, interest rates, government policies, diplomatic conditions, hostile relations with neighbouring countries, taxation policies including the possibility of expropriation or confiscatory taxation, imposition of withholding taxes on IDCW or interest payments, limitation on removal of funds or assets of the Scheme and ethnic, religious and racial disaffections or conflict.

The relative small size and inexperience of the Securities markets in India and the limited volume of trading in Securities may make the Scheme's investments illiquid and more volatile than investments in more established markets. In addition, the settlement systems may be less developed than in more established markets, which could impede the Scheme's ability to effect portfolio transactions and may result in delayed settlement and the Scheme's investments being settled through a more limited range of counter parties with an accompanying enhanced credit risk.

To the extent the Scheme is subject to margining or pre-payment systems, whereby margin or the entire settlement proceeds for a transaction is required to be posted prior to the settlement date, this can potentially give rise to credit and operational risks as well as potentially borrowing costs for the Scheme.

(d) Risks associated with investing in Fixed Income Securities

Investment in Fixed Income Securities is subject to price, credit, and interest rate risk. The NAV of the Scheme may be affected, inter alia, by changes in the market conditions, interest rates, trading volumes, settlement periods and transfer procedures.

Fixed Income Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its debt obligations (credit risk). Fixed Income Securities may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of the creditworthiness of the issuer, among others (market risk). The Investment Manager will endeavor to manage credit risk through in-house credit analysis. The Scheme may also use various hedging products from time to time, as are available and permitted by SEBI, to attempt to reduce the impact of undue market volatility on the Scheme's portfolio.

The NAV of the Scheme's Units, to the extent that the Scheme is invested in fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline. Investing in Fixed Income securities are subject to the risk of an Issuer's inability to meet principal and interest payments obligation (credit risk) and may also be subject to price volatility due to such factors as interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (market risk).

The timing of transactions in debt obligations, which will often depend on the timing of the Purchases and Redemptions in the Scheme, may result in capital appreciation or depreciation because the value of debt obligations generally varies inversely with the prevailing interest rates.

Interest Rate Risk: As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of longer-term securities generally fluctuate more in response to interest rate changes than do shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.

Credit Risk: Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debentures are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

Liquidity or Marketability Risk: This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.

Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk refers to the fall in the rate for reinvestment of interim cash flows.

Risks associated with various types of securities

	CREDIT RISK	LIQUIDITY RISK	PRICE RISK
Listed	Depends on credit quality	Relatively Low	Depends on duration of instrument
Unlisted	Depends on credit quality	Relatively High	Depends on duration of instrument
Secured	Relatively low	Relatively Low	Depends on duration of instrument
Unsecured	Relatively high	Relatively High	Depends on duration of instrument
Rated	Relatively low and depends on the rating	Relatively Low	Depends on duration of instrument
Unrated	Relatively high	Relatively High	Depends on duration of instrument

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme’s risk may increase or decrease depending upon its investment pattern e.g. corporate bonds, carry a higher level of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

(e) Risk associated with investing in Derivatives

- I. **Valuation Risk :** The risk in valuing the Debt & Equity derivative products due to inadequate trading data with good volumes. Derivatives with longer duration would have higher risk viz a viz the shorter duration derivatives.
- II. **Mark to Market Risk :** The day-to-day potential for an investor to experience losses from fluctuations in underlying stock prices and derivatives prices.
- III. **Systematic Risk :** The risk inherent in the capital market due to macro economic factors like Inflation, GDP, Global events.
- IV. **Liquidity Risk :** The risk stemming from the lack of availability of derivatives products across different maturities and with different risk appetite.
- V. **Implied Volatility :** The estimated volatility of an underlying security’s price and derivatives price.
- VI. **Interest Rate Risk :** The risk stemming from the movement of Interest rates in adverse direction. As with all the debt securities, changes in the interest rates will affect the valuation of the portfolios.
- VII. **Counterparty Risk (Default Risk) :** Default risk is the risk that losses will be incurred due to the default by the counterparty for over the counter derivatives.
- VIII. **System Risk :** The risk arising due to failure of operational processes followed by the exchanges and OTC participants for the derivatives trading.

(f) Risk attached with the use of derivatives

1. As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counterparty”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
2. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
3. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

(g) Risks of Total Return

Dividends are assumed to be reinvested into the Nifty 500 Equal Weight Index after the ex-dividend date of the constituents. However in practice, the dividends is received with a lag. This can lead to some tracking error.

(h) Passive Investments

The Scheme is not actively managed. The underlying Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The underlying Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

(i) Risk associated with Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. In case the Scheme undertakes stock lending under the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

(j) Risks associated with segregated portfolio

Liquidity risk

1. Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
2. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Credit risk

1. Security comprising of segregated portfolio may not realise any value.

(k) Tracking Error and Tracking Difference Risk

Tracking error is defined as the annualized standard deviation of the difference in the daily returns between the Underlying Index and the NAV. Tracking Difference is defined as the annualized difference of returns between the underlying index and the NAV of the scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weights as the securities have in the Underlying Index. However, deviations from the stated index replication may occur due to reasons that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, delay in purchase or non-availability of underlying securities forming part of the index etc. Tracking Error/ Tracking Difference may arise due to the following reasons:

1. Delay in purchase or non-availability of underlying securities forming part of the index.
2. Delay in liquidation of securities which have been removed by the Index.
3. Fees and expenses of the Scheme.
4. Cash balance held by the Scheme due to interest received during subscriptions, redemption, etc.
5. Halt in trading on the stock exchange due to circuit filter rules.
6. Corporate actions.
7. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities.
8. Dividend payout.
9. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error. Under normal market circumstances, tracking error based on past one year rolling data shall not exceed 2%. However, in case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

(l) Risks associated with investing in Tri Party Repo through CCIL (TREPS):

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments.

CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall".

As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

(m) Risk factor associated with investment in Units of Other Mutual Funds:

Mutual funds being vehicles of securities investments are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Scheme. The various factors which impact the value of the Schemes' investments include, but are not limited to, fluctuations in the bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes, suspension of subscription/redemptions of the scheme, change in fundamental attribute etc. The Scheme may invest in schemes of Mutual Funds. Hence, scheme specific risk factors of each such mutual fund schemes will be applicable to the Scheme portfolio.

(n) Other Scheme Specific Risk factors

1. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, settlement periods and transfer procedures. In the event of an inordinately large number of redemption requests, or of a re-structuring of the Scheme's investment portfolio, these periods may become significant.
2. Credit And Rating Downgrade Risk, Prepayment And Foreclosures Risk for Senior PTC Series, Prepayment And Foreclosures Risk for Senior PTC Series, Servicing Agent Risk, Co-mingling Risk, Bankruptcy of the Seller.
3. The NAV of the scheme to the extent invested in Debt and Money market securities are likely to be affected by changes in the prevailing rates of interest and are likely to affect the value of the Scheme's holdings and thus the value of the Scheme's Units.
4. The AMC may, considering the overall level of risk of the portfolio, invest in lower rated/ unrated securities offering higher yields. This may increase the risk of the portfolio.
5. Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in to be listed equity securities that offer attractive yields. This may increase the risk of the portfolio.
6. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
7. Investment decisions made by the AMC may not always be profitable, even though it is intended to generate capital appreciation and maximize the returns by actively investing in equity and equity related securities.
8. The AMC carries out valuation of investments made by the Scheme. The AMC values Securities and assets in the Scheme according to the valuation policies described in the Statement of Additional Information.
9. The tax benefits available under the scheme are as available under the present taxation laws and are available only to certain specified categories of investors and that is subject to fulfillment of the relevant conditions. The information given is included for general purposes only and is based on advise that the AMC has received regarding the law and the practice that is currently in force in India and the investors and the Unitholders should be aware that the relevant fiscal rules and their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor/Unitholder is advised to consult his/her own professional tax advisor.

Past performance of the Sponsor/ the AMC/ the Mutual Fund is not indicative of the future performance of the Scheme. Nippon India Nifty 500 Equal Weight Index Fund is the name of the Scheme and does not in any manner indicate either the quality of the Scheme; its future prospects or returns.

All IDCW distributions are subject to the availability of distributable surplus in the Scheme. When an investor switches from this scheme to another scheme on a future date, the scheme specific risk factors applicable to such scheme into which he switches, will apply.

C. Risk mitigation strategies

Risk mitigation measures for portfolio volatility and portfolio concentration:

Index Fund being a passive investment carries less risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme.

Risk mitigation measures for managing liquidity:

As per data from NSE more than half of market liquidity remains in the index. Therefore, the scheme does not envisage liquidity issues. The scheme may take exposure to equity derivatives of the index itself or its constituent stocks, when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period.

Type of Risks	Measures/ Strategies to control risks
Equity Markets/ Equity Oriented Instruments	<ul style="list-style-type: none"> • Market Risk and Volatility: Market risk is a risk which is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index. • Concentration / Sector Risk: Index Fund being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The Risk Mitigation strategy revolves around minimizing the Tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Underlying Index as well as the incremental collections into / redemptions from the Scheme. • Liquidity Risks: As such the liquidity of stocks that the scheme invests into could be relatively low. The fund will endeavor to maintain a proper asset liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.
Debt and Money Market instruments	<ul style="list-style-type: none"> • Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. • Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities. • Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. • Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities • Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. • Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Derivatives	<p>The Scheme may take an exposure to equity derivatives of constituents or index derivatives of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted. All derivatives trade will be done only on the exchange with guaranteed settlement. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.</p>
Securities Lending	<p>The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs)." The risk is adequately covered as Securities Lending &</p> <p>Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.</p>
Currency	<p>The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purpose of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities.</p> <p>All currency derivatives trade, if any will be done only through the stock exchange platform.</p>
Segregated Portfolio	<p>In such an eventuality it will be AMC's endeavor to realise the segregated holding in the best interest of the investor at the earliest.</p>
Tracking errors	<p>Over a short period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objective of the Scheme is to closely track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.</p>
Government securities and Triparty repo on Government securities or treasury bills:	<p>As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also, there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.</p>

Units of overnight & liquid mutual fund schemes	Liquidity is generally high in both overnight as well as liquid schemes.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mentioned above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same..

II. Information about the scheme:

A. Where will the scheme invest –

The net assets of the Scheme will be invested predominantly in stocks constituting the Nifty 500 Equal Weight Index and / or its exchange traded derivatives. A small portion of the net assets will be invested in money market instruments permitted by SEBI / RBI.

Subject to the Regulations, the amount collected under this scheme can be invested in any (but not exclusively) of the following securities / instruments:

- (1) Equity and Equity related Securities of companies constituting Nifty 500 Equal Weight Index.
- (2) Cash and Cash Equivalents and Money market instruments permitted by SEBI/RBI. Money market instruments include Tri-Party Repo/ Repo/Reverse Repo, certificate of deposit, commercial papers, commercial bills, treasury bills, Government securities issued by Central and/or State Government having an unexpired maturity up to one year, call or notice money, usance bills (BRDS) and any other similar instruments as specified by the RBI/SEBI from time to time. Cash Equivalents include Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.
- (3) The Fund may also enter into “Repo”, hedging or such other transactions as may be allowed to Mutual Funds from time to time.
- (4) Units of money market / liquid schemes.
- (5) The Scheme may take derivatives position like stock/Index futures, Stock/Index options based on the opportunities available subject to the guidelines issued by SEBI from time to time and in line with the overall investment objective of the Scheme. These may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under the Regulations.
- (6) Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations, after seeking necessary approval, whenever required.

Securities Lending by the Fund:

The scheme shall engage in securities lending for equity investments, in line with the SEBI (Mutual Funds) Regulations, 1996, Securities Lending Scheme, 1997 and Clause 12.11 of SEBI Master Circular dated May 19, 2023 notifying framework 13 for lending of securities and such other applicable guidelines as may be amended from time to time.

The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty or such other limits as may be permitted by SEBI from time to time,

In accordance with the Regulations and applicable guidelines, the Fund may engage in stock lending activities. The Securities will be lent by the Approved Intermediary against collateral received from borrower, for a fixed period of time, on expiry of which the securities lent will be returned by the borrower.

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the scheme may not be able to sell such lent out securities

B. What are the investment restrictions?

The investment policy of the scheme complies with the rules, regulations and guidelines laid out in SEBI (Mutual Funds) Regulations, 1996. As per the Regulations, specifically the Seventh Schedule, the following investment limitations are currently applicable:

- (1) All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.
- (2) Mutual Fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-Party Repo on Government securities or Treasury bills.

Provided further that the schemes already in existence shall within an appropriate time and in the manner, as may be specified by the Board, conform to such limits.

As per clause 12.8 of SEBI Master circular dated May 19, 2023, the scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt, cash & cash equivalents and money market instruments shall be in the range of 0% to 5% of the net assets of the Scheme.

- (3) Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the following:
 - a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure of mutual fund schemes in such instruments, shall not exceed 5% of the net assets of the schemes.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
- (4) The Mutual Fund under all its schemes taken together will not own more than 10% of any companies paid up capital carrying voting rights. Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of subregulation (1), of regulation 7B.
- (5) Transfers of investments from one scheme to another scheme in the Mutual Fund shall be allowed only if:
 - I. Such transfers are done at the prevailing market price for quoted instruments on spot basis;
 - II. The securities so transferred shall be in conformity with the investment objectives & policies of the Scheme to which such transfer has been made.

Such transfer would be in accordance with the Clause 12.30 of SEBI Master circular dated May 19, 2023 or any other circular issued by SEBI from time to time.

- (6) The Scheme may invest in money market / liquid schemes under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all Schemes under the same management company or in schemes under the management of any other AMC shall not exceed 5% of NAV of the Mutual Fund. [Provided that this clause shall not apply to any fund of funds scheme.]
- (7) The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities.

Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

- (8) The Fund shall get the securities purchased or transferred in the name of the Fund on account of the concerned scheme, wherever investments are intended to be of a long-term nature.
- (9) The fund's schemes shall not make any investment in:
 - (i) Any unlisted security of an associate or group company of the sponsor
 - (ii) Any security issued by way of private placement by an associate or group company of the sponsor
 - (iii) The listed securities of group companies of the sponsor which is in excess of 25% of the net assets of the scheme.
- (10) The Scheme shall not invest in a fund of funds scheme.

- (11) Pending deployment of funds of the scheme in securities in terms of the investment objectives and policies of the scheme, the Mutual Fund can invest the fund of the scheme in short term deposits of scheduled commercial banks subject to the guidelines as applicable from time to time.

Pursuant to the Clause 12.16 of SEBI Master circular dated May 19, 2023, where the cash in the scheme is parked in short term deposits of Scheduled Commercial Banks pending deployment, the scheme shall abide by the following guidelines:

- “Short Term” for parking of funds shall be treated as a period not exceeding 91 days.
- Such short-term deposits shall be held in the name of the Scheme.
- The scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- The scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- The scheme shall not park funds in short term deposit of a bank, which has invested in the Scheme. Further, the bank in which a scheme has short term deposit will not invest in the said scheme until the scheme has short term deposit with the bank.
- NAM INDIA will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivatives market.

- (12) No term loans for any purpose will be advanced by the Scheme.
- (13) The AMC may invest in the Scheme in the new fund offer. However, it shall not charge any investment management fee on such amounts invested by it.
- (14) The Scheme shall not invest more than 10% of its NAV in equity shares/equity related instruments of any company.

Provided that, the limit of 10% shall not be applicable for investments in index fund or sector/industry specific scheme.

As per Clause 12.5 of SEBI Master circular dated May 19, 2023 “the investments by index funds shall be in accordance with the weightage of the scrips in the specific index as disclosed in the Scheme Information Document. In case of sector/industry specific scheme, the upper ceiling on investments may be in accordance with the weightage of the scrips in the respective sectoral index/sub index or 10% of the NAV of the scheme whichever is higher.”

- (15) In case any company has invested more than 5% of the net asset value of a scheme, the investment made by that scheme or by any other scheme of the same Mutual Fund in that company or its subsidiaries, if any, shall be brought to the notice of the Trustees by NAM INDIA and be disclosed in the half-yearly and annual accounts with justification for such investment provided that the latter investment has been made within one year of the date of the former investment calculated on either side.
- (16) The Scheme will comply with any other regulations applicable to the investments of mutual funds from time to time.
- (17) The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of repurchase / Redemption of Units or payment of interest and IDCW to the Unitholders.

Provided that the Fund shall not borrow more than 20% of the net assets of any individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

In case of borrowing through repo transactions the tenor of such transaction shall not exceed a period of six months.

- (18) In order to address the risk related to portfolio concentration in Index Funds in accordance with Clause 3.4 of SEBI Master circular dated May 19, 2023, the following norms are adopted:
- a) The index shall have a minimum of 10 stocks as its constituents.
 - b) For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
 - c) The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
 - d) The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

- (19) The cumulative gross exposure through equity, Money Market instruments and derivative positions (including Fixed income derivatives) should not exceed 100% of the net assets of the scheme. As per SEBI Letter dated 3rd November 2021 Cash and cash equivalents having residual maturity of less than 91 Days are not considered for the purpose of calculating gross exposure limit.
- (20) The scheme may engage in Securities Lending not exceeding 15% of the net assets of the scheme and shall not lend more than 5% of its Net Assets to a single counterparty (here counterparty means an intermediary/broker through whom we deal in securities) or such other limits as may be permitted by SEBI from time to time after seeking necessary approval, whenever required.
- (21) The scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments. However, scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

The scheme seeks to replicate a particular Index hence shall ensure that the index complies with the aforesaid norms.

All investment restrictions stated above shall be applicable at the time of making investment. The Scheme will not enter into any transaction, which exposes it to unlimited liabilities or results in the encumbering of its assets in any way so as to expose them to unlimited liability.

These investment limitations / parameters as expressed / linked to the net asset / net asset value / capital, shall in the ordinary course, apply as at the date of the most recent transaction or commitment to invest. Changes do not have to be effected merely because of appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders.

The Trustee Company in consultation with AMC may alter these above stated limitations from time to time, and also to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments in order to achieve its investment objectives & policies. As such, all investments of the Scheme will be made in accordance with the Regulations including Schedule VII thereof and the Fundamental Attributes of this Scheme.

At NIMF, to ensure robust risk management and adequate portfolio diversification internal Investment policy for various equity and debt schemes has been framed. The investment policy at NIMF specifies limits both on overall basis (across all schemes) as well as on individual scheme level.

Guidelines and the following parameters for liquid as well as non liquid schemes have been specified in the policy as follows:

- (i) Eligible Instruments - Defines the eligible instruments where the scheme can invest
- (ii) Minimum Liquidity - Defines the instruments considered as liquid instruments and the minimum investments in these instruments as a percentage of total net assets
- (iii) Maximum Illiquid component - Defines the instruments considered as illiquid and the maximum investment that can be made in these instruments as a percentage of net assets.
- (iv) Rating - Defines minimum and/ or maximum investment in a particular rating as a percentage of total portfolio.
- (v) Maturity - Defined the weighted average maturity of a portfolio. Also defines the weighted average maturity, maximum and maturity for certain asset types like corporate bond, PTCs, Gilts etc.
- (vi) All the Schemes securities investment will be in transferable securities.

Investment by the AMC in the Scheme: In line with SEBI Regulations and circulars issued by SEBI from time to time, the AMC may invest its own funds in the scheme(s). Further, the AMC shall not charge any fees on its investment in the Scheme (s), unless allowed to do so under SEBI Regulations in the future.

C. Fundamental Attributes

Following are the Fundamental Attributes of the scheme, in terms of Clause 1.14 of SEBI Master Circular for Mutual Funds dated May 19, 2023:

- (i) **Type of a scheme** - An open-ended scheme replicating/tracking Nifty 500 Equal Weight Index
- (ii) **Investment Objective**
 - **Main Objective:-** The investment objective of the scheme is to provide investment returns that commensurate to the total returns of the securities as represented by the Nifty 500 Equal Weight Index before expenses, subject to tracking errors. However, there is no assurance that the investment objective of the Scheme will be achieved.
 - **Investment pattern:-** For Detailed description, please refer to Section I - Part II – B (HOW WILL THE SCHEME ALLOCATE ITS ASSETS?)
- (iii) **Terms of Issue**
 - **Liquidity provisions such as listing, repurchase, redemption.**

Being an open-ended scheme, the Units of the Scheme will not be listed on any stock exchange, at present. The Trustee may, at its sole discretion, cause the Units under the Scheme to be listed on one or more Stock Exchanges.

The Scheme will offer for Subscription/ Switch-in and Redemption / Switch-out of Units on every Business Day on an ongoing basis, within five business days of allotment. The redemption or repurchase proceeds shall be transferred to the unitholders within 3 working Days from the date of redemption or repurchase.
 - **Aggregate fees and expenses charged to the scheme.**
 - i) New Fund Offer (NFO) Expenses : Refer to Section I - Part-III - B
 - ii) Annual Scheme Recurring Expenses : Refer to Section I - Part-III - C
 - **Any safety net or guarantee provided. – Not Applicable**

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations and Clause 1.14.1.4 of SEBI Master Circular for Mutual Funds dated May 19, 2023, the trustees shall ensure that no change in the fundamental attributes of the Scheme, the fee and expenses payable or any other change which would modify the Scheme and affect the interests of Unitholders is carried out by the AMC, unless it complies with sub-regulation (26) of Regulation 25 of the SEBI (MF) Regulations.

Further, in accordance with Regulation 25 (26) of the SEBI (MF) Regulations, the AMC shall ensure that no change in the fundamental attributes of the Scheme or the trust or fee and expenses payable or any other change which would modify the Scheme and affect the interests of Unitholders shall be carried out unless:

- (i) A written communication about the proposed change is sent to each Unitholder and an advertisement is issued in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and

- (ii) The Unitholders are given an option for a period of atleast 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

In addition to the above, for bringing change in the fundamental attributes of the scheme, the comments shall be taken from SEBI before bringing such change(s).

D. Index methodology (for index funds, ETFs and FOFs having one underlying domestic ETF) –

Nifty 500 Equal Weight Index represents an alternative weighting strategy to its market capitalization based parent index, the Nifty 500 Index. The index includes the same companies as its parent index, however, weighted equally. The index aims to measure the performance of constituents forming part of the parent index, the Nifty 500 Index, where each company in the index will be assigned equal weights at the time of review.

The index has a base date of April 01, 2005, with a base value of 1000.

Universe:

- Nifty 500

Eligibility criteria:

- All constituents forming part/going to form part of Nifty 500 will form part of the Nifty 500 Equal Weight at all point in time.

Reconstitution & Rebalancing criteria:

- Index will be reconstituted semi-annually based on January and July ending data along with the review of Nifty 500.
- The replacement of stocks in Nifty 500 (if any) is implemented from the last trading day of March and September.
- Weightage of stocks in equal weighted indices are aligned equally at the time of change in the index composition in March and September.
- Additionally, weightage will be aligned equally on a quarterly basis and implemented from the last trading day of March, June, September, and December.
- Weights may drift between rebalancing due to movement in stock prices.
- Apart from the scheduled review, additional ad-hoc reconstitution and rebalancing of the index will be initiated in case any of the index constituents ceases to form part of Nifty 500 due to suspension, delisting or scheme of arrangement.

Constituent weights:

- At each rebalancing and reconstitution, all the companies in the index are given equal weights.

$$w = 1/N,$$

Where N= Number of companies in the index

- In case there are multiple securities (e.g. DVR) of the same company in the index, the company will be equal weighted and the securities will be weighted in proportion to free float-adjusted market capitalization

Further, NAM India shall not charge any fees on its investment in the Scheme (s), unless allowed to do so under SEBI Regulations in the future.

It is expressly understood that at the time of investment, the investor/unit holder has the express authority to invest in units of the Scheme and the AMC / Trustee / Mutual Fund will not be responsible if such investment is ultravires the relevant constitution.

Foreign Account Tax Compliance

In accordance with the relevant provisions of the Foreign Account Tax Compliance Act ("FATCA") as contained in the United States Hiring Incentives to Restore Employment ("HIRE") Act, 2010, there is a likelihood of withholding tax being levied on certain income/receipt sourced from the subjects of United States of America ("US") with respect to the schemes, unless such schemes are FATCA compliant.

In this regard, the respective governments of India and US have signed an Inter Governmental Agreement-1 (IGA) on July 9, 2015. In the terms of this proposed IGA, Nippon India Mutual Fund ("NIMF") and/ or Nippon Life India Asset Management Limited ("NAM India"/ "AMC") classified as a "Foreign Financial Institution" and in which case NIMF and/ or NAM India would be required, from time to time, to (a) undertake the necessary due-diligence process; (b) identify US reportable accounts; (c) collect certain required information/ documentary evidence ("information") with respect to the residential status of the unit holders; and (d) directly or indirectly disclose/ report/ submit such or other relevant information to the appropriate Indian authorities. Such information may include (without limitation) the unit holder's folio detail, identity of the unit holder, details of the beneficial owners and controlling persons etc

In this regard and in order to comply with the relevant provisions under FATCA, the unit holders would be required to fully cooperate & furnish the required information to the AMC, as and when deemed necessary by the latter in accordance with IGA and/ or relevant circulars or guidelines etc, which may be issued from time to time by SEBI/AMFI or any other relevant & appropriate authorities.

The applications which do not provide the necessary information are liable to be rejected. The applicants/ unit holders/ prospective investors are advised to seek independent advice from their own financial & tax consultants with respect to the possible implications of FATCA on their investments in the scheme(s).

The underlying FATCA requirements are applicable from July 1, 2014 or such other date, as may be notified.

In case required, NIMF/ NAM India reserves the right to change/ modify the provisions (mentioned above) at a later date.

The Fund reserves the right to include / exclude new / existing categories of investors to invest in the Schemes, subject to SEBI Regulations and other prevailing statutory regulations, if any.

	<p>Rejection of the application</p> <p>Subject to the SEBI Regulations and applicable Laws, any application for NFO Units may be accepted or rejected at the sole and absolute discretion of the Trustees / AMC. For example and without limitations, the Trustees/AMC may reject any application for the Purchase of NFO Units if the application is received from an Investor to whom the NFO Units cannot be lawfully or validly offered or by whom the NFO Units cannot be lawfully or validly subscribed or if the Investor does not provide information / details required by the Mutual Fund / AMC/ Trustees in relation to KYC, beneficial ownership, FATCA or any other requirements mandated by the Mutual Fund / Trustees / AMC pursuant to any directives of AMFI or any other additional administrative processes required with respect to such Investors or if the application is invalid or incomplete, or if, in its opinion, increasing the size of the Scheme's Unit Capital is not in the general interest of the Unit holders, or if the Trustees/ AMC for any other reason does not believe that it would be in the best interest of the Scheme or its Unit holders to accept such an application.</p> <p>Further information request by the AMC/Trustees</p> <p>The AMC / Trustees may request Investors / Unit holders to provide verification of their identity or other further details as may be required in the opinion of the AMC / Trustees under applicable Laws and/or pursuant to any directives of AMFI. This may result in a delay in dealing with the applicants, Unit holders, benefits, distribution, etc. and/or even rejection of the application / mandatory Redemption of Units.</p>
