INTERNAL RISKS

- 1. Our business is capital intensive in nature. If we are unable to raise additional funds when needed, or on terms acceptable to us, we may be required to scale down or abandon our expansion & growth plans and/or reduce capital expenditures and the size of our operations, any of which could materially and adversely affect our business, financial position and results of operations.**

Our business requires us to obtain and renew from time-to-time certain approvals, licenses, registrations and permits, some of which have expired and for which we have either made or are in the process of making an application for obtaining the approval or its renewal. In particular, our Company has applied for registration of its logo with the Trade Mark Registry on June 06, 2024. Further, these approvals, licenses, registrations and permissions under various regulations, guidelines, circulars and statutes regulated by various authorities for operating our business activities may contain conditions, some of which could be onerous. There can be no assurance that the relevant authorities will issue these approvals or licenses in a timely manner, or at all. In the event of any unanticipated delay in receipt of such approvals, it will have an adverse impact on our business operations.

Failure by us to renew, maintain or obtain the required permits or approvals at the requisite time may result in the interruption of our operations and may have an adverse effect on our business, financial condition and results of operations. Further, we cannot assure that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or

pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, may impede our operations. For further details, see “**Government and Other Approvals**” on page 220 of this Red herring prospectus. In the event that we are unable to obtain such approvals in a timely manner or at all, our business operations may be adversely affected. We may be involved in any environmental legal proceedings in the course of our business due to non-compliances with terms and conditions of regulatory approvals or authorizations

2. ***We generate a significant percentage of our revenue from few clients. The loss of any one or more of our major clients would have a material adverse effect on our business operations and profitability.***

Our company has been generating revenue from limited customers, the total revenue for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023 is from top ten customers and this dependency on limited number of customers would form a scenario in future where discontinuance of any of these customers would impact our financial position. Further, we do not have long term agreements with our top 10 customers which also exposes us to the risk of obtaining regular orders from them. Our business operations are highly dependent on our top customers, which exposes us to a high risk of customer concentration. The following table summarizes the revenue proportion of our top customers for the respective period:

(₹ in Lakhs)

Particulars	For the Financial Year ended					
	March 31, 2025		March 31, 2024		March 31, 2023

Total	2,193.02	59.17%	1691.75	72.35%	513.88	66.96%

*The % is arrived by dividing it by total revenue from operations.

3. ***We depend on a few key suppliers who help us procure cameras. Our Company has not entered into long-term agreements with its suppliers for the same. In the event we are unable to procure the same, at competitive prices our business, results of operations and financial condition may be adversely affected.***

Our business relies heavily on a few key suppliers to procure cameras and lenses, which makes vulnerable to any disruptions or changes in operations. If these suppliers face issues such as inventory shortages, logistical challenges, or internal problems, our ability to obtain necessary equipment could be compromised. The absence of long-term agreements with our suppliers adds a layer of uncertainty to our supply chain. Without contractual obligations, suppliers are not bound to offer consistent pricing, availability, or priority in fulfilling our orders. This can lead to situations where they might prioritize other customers, particularly during periods of high demand or supply shortages. The lack of long-term agreements also means we are exposed to fluctuations in market prices. Suppliers may increase prices without notice, especially if there is a surge in demand or a shortage of supply. This price volatility can significantly impact on our cost structure, squeezing profit margins and making it difficult to offer competitive rental rates to our customers. The inability to secure the necessary equipment at competitive prices can adversely affect our business's financial health. Increased procurement costs can lead to reduced profitability, while supply shortages might result in decreased revenue due to the inability to meet customer demand.

Our top ten suppliers contribute 100% of our total Hire charges paid for the financial year ended on, March 31, 2025 March 31, 2024, and March 31, 2023 respectively based on restated financial statement. The details of this concentration are provided in the following table:

(₹ in Lakhs)

Particulars	For the Financial Year ended		
	March 31, 2025	March 31, 2024	March 31, 2023

	Hire charges paid	In %*	Hire charges paid	In %*	Hire charges paid	In %*
Supplier 1	68.26	19.28%	204.50	38.90 %	165.00	77.33 %
Supplier 2	65.00	18.36%	126.00	23.97 %	35.00	16.40 %
Supplier 3	54.75	15.47%	63.57	12.09 %	7.75	3.63 %
Supplier 4	53.10	15.00%	56.65	10.78 %	4.00	1.87 %
Supplier 5	39.48	11.15%	30.00	5.71 %	1.23	0.58 %
Supplier 6	35.62	10.06%	26.71	5.08 %	0.18	0.08 %

Supplier 8	11.52	3.25%	0.52	0.10 %	0.07	0.03 %
Supplier 9	3.65	1.03%	0.21	0.04 %	-	-
Supplier 10	1.25	0.35%	0.04	0.01 %	-	-
Total	353.19	99.77%	525.69	100%	213.37	100%

*The % is arrived by dividing it by total hire charges paid.

4. *Changes in technology render our current equipment obsolete and require us to make substantial capital investments.*

The technology requirements for businesses in the camera rental space are subject to continuous change and development. Our inventory of existing equipment becomes obsolete on introduction of newer and better technologies in camera and lenses. We must continuously update our existing equipment in order to meet our clients' requirements and remain competitive in this market. In addition, rapid and frequent technological and market demand changes often render our equipment obsolete and result in requirements for additional and substantial capital expenditures and/ or significant write downs of our assets. The cost of upgrading our existing equipment could be significant. Our inability to successfully adopt new technologies in a cost effective and a timely manner could increase our costs and adversely affect our competitive position in terms of pricing or quality of service. Further, if we fail to anticipate or respond adequately to our clients' changing requirements or keep pace with the latest technological developments, our business, prospects, financial condition and results of operations may be materially and adversely affected.

5. *Our company faces uncertainty and payment risks due to Project-Based Business.*

Our camera rental Company primarily secures clients through word-of-mouth referrals, catering to a diverse range of projects including movies, news coverage, events, reality shows, sports, and TV serials. While this approach has helped us build a strong client base, it also introduces significant risks due to the nature of our project-based business. We typically enter into understanding with our clients at the onset of each project, with payments being made only upon the completion of the project. Projects such as movies and TV serials often have unpredictable timelines. Our Average tenure of rent ranges between 20-26 days. Production schedules can extend far beyond the originally anticipated completion date due to various factors, including delays in shooting, changes in production plans, or unforeseen events. This uncertainty can lead to prolonged periods before payments are received, impacting our cash flow and financial stability. Since payments are contingent upon project completion, any delay in the completion of a project directly results in a delay in receiving payment. Moreover, in cases where projects are cancelled or significantly altered, there is a risk that the client may default on the payment, leaving us with unrecovered costs associated with providing the equipment. Unlike businesses that operate on upfront payments or milestone-based billing, our model lacks payment security. This exposes us to the risk of clients not fulfilling their financial obligations after the equipment has been rented out and utilized for extended periods. The project-based nature of our contracts means that our revenue stream is highly variable and dependent on the completion of individual projects. This lack of consistency can lead to periods of financial strain, particularly if multiple projects are delayed or cancelled concurrently. The uncertainty around project completion also complicates our ability to effectively manage and allocate our inventory of cameras and equipment. Extended or indefinite project timelines may prevent us from renting the same equipment to other clients, potentially leading to missed opportunities and reduced overall rental income.

6. *The tenure of projects are usually long and we realise the hire charges from our customers upon completion of project. This may interrupt smooth cash flows in future.*

Our company enters into contracts with customers where payments are typically made upon the completion of projects. Consequently, the realization of payments from customer is often slow and can be delayed for extended periods. Any disruption in, or non-realization of, payments from customers could have a significant adverse impact on our cash flow and overall financial stability. Such delays, especially if unanticipated, may hinder our ability to meet operational needs and obligations, potentially affecting the continuity of our business operations. The duration of our rental projects can vary considerably, with project timelines ranging from a minimum of one day to as long as thirty six months, further complicating cash flow forecasting and management.

7. ***Our business is operating under various laws which require us to obtain approvals from the concerned statutory/regulatory authorities in the ordinary course of business and our inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals for our business operations could materially and adversely affect our business, prospects, results of operations and financial condition.***

Our business requires us to obtain and renew from time-to-time certain approvals, licenses, registrations and permits. In particular, our Company has applied for registration of its logo with the Trade Mark Registry on June 06, 2024 which is “objected” as on June 09, 2025. Further, these approvals, licenses, registrations and permissions under various regulations, guidelines, circulars and statutes regulated by various authorities for operating our business activities may contain conditions, some of which could be onerous. There can be no assurance that the relevant authorities will issue these approvals or licenses in a timely manner, or at all. Failure by us to renew, maintain or obtain the required permits or approvals at the requisite time may result in the interruption of our operations and may have an adverse effect on our business, financial condition and results of operations. Further, we cannot assure that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, may impede our operations.

For further details, see “**Government and Other Approvals**” on page 220 of this Red Herring Prospectus.

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

Our Company is engaged in an asset-based business that necessitates periodic investments in its assets, including cameras, lenses, and equipment, to remain competitive and upgrade in accordance with industry standards. The main reason for negative cashflow from investing activities in all the years is due to investment in such assets.

10. *Damage of cameras and other related equipments by the customers during the period of Renting.*

There is a risk that customers may damage rented cameras or related equipment during the rental period. This damage could occur due to accidental mishandling, improper use, neglect, or failure to follow provided instructions. Such damages can result in the need for repairs or replacement of the equipment which the customer may indemnify as per the conditions mentioned in the invoice. However, in case the customer denies to indemnify cost of repairs to such damages, leading to significant financial losses for the company. Additionally, the potential for reputational harm arises if damaged equipment results in customer dissatisfaction or negative reviews. The company may also incur additional costs associated with the assessment and maintenance of damaged items, along with potential delays in availability for future customers.

The Company has the following established controls to mitigate risks of occurrence of damages to the equipment:

1. Insurance - The Company has taken Fire (primary) and Earthquake Insurance (add on cover) coverage of ₹ 12.30 crores for its stock of camera and lighting equipment to mitigate loss/damage.
2. Internal Controls:
 - i. Proper handling of equipment via safety boxes/packaging is done to ensure that there is no damage due to mishandling the equipment while transporting or storing at the site.
 - ii. While giving the equipment on rent, it is specified on the invoices that loss/damage to be borne by production house.
 - iii. Technicians are sent to client's site which ensures that the inventory is not kept unattended at any point of time.

11. *Inability to Handle Complaints from Customers due to lack of complaint resolution process.*

There is a risk that the company may not be able to effectively handle complaints or issues raised by customers regarding the rented cameras or services provided. This may arise from insufficient customer support resources, lack of complaint resolution process, or delays in addressing concerns. Failure to adequately address complaints may lead to customer dissatisfaction, a decline in customer loyalty, negative reviews, and damage to the company's reputation. Moreover, unresolved issues may result in loss of business opportunities or potential legal claims may arise if complaints escalate.

The equipments are thoroughly checked before dispatch to the client from our side as well as from the client's side at the time of receiving the equipments at the site. In case of any technical issue in our equipment on-site, our technicians are

available to resolve any issues on real-time basis. As such, there has not been any instance of any complaints from customers in relation to the rented equipment as on the date of the Red herring prospectus. For more reference refer chapter titled “**Our Business**” on page 122 of this Red herring prospectus.

12. Major lapses of internal control or system failures could adversely impact the company’s business.

Our Company is vulnerable to risk arising from the failure of employees to adhere to approved procedures, system controls, fraud, system failures, information system disruptions, communication systems failure and interception during transmission through external communication channels or networks. Failure to protect fraud or breach in security may adversely affect our Company’s operations and financial performance. Our reputation could also be adversely affected by significant fraud committed by our employees, agents, customers or third parties. Though, there had been no of such instances in past, we may not be able to assure such incident will not happen in the future.

13. Our Special Purpose Carved-Out Combined Financial Statements and Carved-Out Operating Data may not be representative of our results as an independent company.

Our Company was incorporated on May 19, 2022, as a Private Limited Company in the name of “Moving Media Entertainment Private Limited” under the provisions of the Companies Act, 2013 with the Registrar of Companies, Central Registration Centre. Subsequently, pursuant to a Special Resolution of our Shareholders passed in the Extra-Ordinary General Meeting held on June 25, 2024, our Company was converted from a Private Limited Company to Public Limited Company and consequently, the name of our Company was changed to ‘Moving Media Entertainment Limited’ and a Fresh Certificate of Incorporation consequent to Conversion was issued on July 24, 2024 by the Registrar of Companies, Central Processing Centre. Subsequently, our Company acquired the running business on a going concern basis with the assets and liabilities of M/s Moving Media, sole proprietorship concern of our promoter Mr. Kuuldeep Beshawar Nath Bhargava vide Business Transfer Agreement dated August 05, 2024, effective from April 01, 2024.

As a result, till March 31, 2024, the company was operating on a standalone basis beginning from May 19, 2022. Our Restated Financial Information for the period from May 19, 2022 to March 31, 2023, to which we refer as “Fiscal 2023”, and for Fiscal 2024 were prepared on a standalone basis. For comparative purposes, we have also prepared Special Purpose Carved-Out Combined Financial Statements for Fiscal 2024, 2023 and Fiscal 2022, which includes the carved-out business in respect of M/s. Moving Media (sole proprietorship concern of our promoter Mr. Kuuldeep Beshawar Nath Bhargava until March 31, 2024) which has been combined with restated financial statements of our company for the year ended March 31, 2023 and 2024. For Fiscal 2022, carved out financial information represents standalone financial information of M/s. Moving Media proprietorship concern.

Certain operating data and key performance indicators for Fiscal 2022, 2023 and Fiscal 2024 are presented on a carved-out basis. This special purpose carved-out combined financial information and Carved-out Operating Data and key performance indicators are not of our Company’s standalone financials and operations. The Special Purpose Carved-Out Combined Financial Statements and Carved-out Operating Data and key performance indicators for Fiscal 2022, 2023 and Fiscal 2024 presented in this Red herring prospectus may not be representative of what our financial condition, results of operations, cash flow or operating performance would have been had we been a separate entity during the periods presented. Furthermore, neither the Restated Financial Information nor the Special Purpose Carved-Out Combined Financial Statements should be used to forecast or accurately predict our future performance with any degree of certainty.

14. Our Registered Office from where we operate are not owned by us. The same is occupied by us on a lease basis. Disruption of our rights as lessee or termination of the agreement with our lessor would adversely impact our operations and, consequently, our business.

Our registered office, located at B 39/155, Siddha CHS, Opp. Ozone, Swimming Pool, Siddharth Nagar, Goregaon, Mumbai - 400104, West, Maharashtra, India. We have taken our Registered Office on lease vide lease and license agreement dated May 22, 2024 which is effective from April 01, 2024 and valid till March 31, 2027. Our company operates from leased office premises, which subjects us to the terms and conditions set by the licensor. There is no assurance that we will be able to maintain our current lease arrangement beyond its term or that any renewal will be on commercially favorable terms. At the end of the lease period, the licensor may increase rent or impose less favorable terms, potentially raising our operational costs and impacting our profitability. If we are unable to renew the lease or if the terms become untenable, we will need to find and secure alternative office space. Relocating could be disruptive and costly, involving expenses related to moving, setting up new infrastructure, and potential downtime. This disruption may lead to delays in serving clients, interruptions in rental services, and loss of productivity. The challenge of finding new premises on acceptable terms could further strain our financial condition. Increased rent or relocation costs may adversely

affect our business operations and overall financial stability. Consequently, our reliance on leased premises introduces risks related to potential lease term changes and relocation challenges, which could impact our business prospects, results of operations, and financial health.

15. Our Dependency on Third-Party Logistics Service Providers and Lack of Transit Insurance

Our Company is partially dependent on third-party logistics service providers for the transportation of camera and its accessories to the production house from whom we have received the orders. Any disruption, delay, or cost fluctuation in transportation services could adversely affect our business operations and financial performance. Additionally, we do not maintain transit insurance, which may expose us to financial liabilities in case of loss or damage to goods during transit.

Additionally, we do not maintain transit insurance for the transportation of goods. Without this coverage, we expose ourselves to the risk of financial loss in the event of unforeseen incidents such as theft, damage, or destruction of goods while in transit. In such cases, the Company may face substantial financial liabilities, as we would be responsible for replacing or compensating for the lost or damaged goods, which could negatively impact our financial health and operational continuity. This lack of insurance coverage increases our vulnerability to transportation-related risks, which may have significant repercussions on both our bottom line and long-term business stability. However, there have been no such occurrence or instances of the disclosed event since the incorporation of the company. The risk mentioned above shows the risks which may or may not occur in future which could impact the business of our Company.

16. We have entered into related party transactions in the past and may continue to do so in the future.

Our Company has entered into various transactions with our Directors, Promoters and Promoter Group members/entities. These transactions, inter-alia includes, remuneration, loans and advances, hire charges, purchase and sales etc. Our Company has entered into such transactions due to easy proximity and quick execution. The details of related party transactions entered into the last three fiscals as well as stub period, have been confirmed to be on arms-length basis as per Peer Review Auditor's certificated dated June 17, 2025. All related party transactions entered in the last three fiscals and stub period, is on arm's length basis and is following the provisions of Companies Act, 2013 and other applicable laws. It is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects. For details, please refer to "**Annexure XXV – Related Party Transactions**" under Section titled "**Financial Information of the Company**" and Chapter titled "**Summary of Offer Document**" beginning on page 187 and 25 respectively of this Red herring prospectus.

17. Our business is geographically located in one area and generates major portion of sales from our operations from Mumbai, Maharashtra. Any adverse developments affecting our operations in this region could have an adverse impact on our revenue and results of operations.

Our camera rental company is predominantly based in Mumbai, Maharashtra, where we generate the majority of our revenue due to entertainment industry is based out from Mumbai. This geographical concentration exposes us to several risks that could significantly impact our business operations and financial performance. For the Financial years ending March 31, 2025, 2024 and March 31, 2023, we derived most of our sales from clients located in Mumbai, Maharashtra, with only minor contributions from other state. Any severe natural event could lead to operational disruptions, damage to equipment, and logistical challenges, adversely affecting our ability to conduct business and deliver services. This concentration of our business one region, subjects us to various risks, including but not limited to the following risks:

- New regulations or policy changes might increase operational costs or impose additional compliance requirements.
- Lack of geographic diversification exposes us to higher risks associated with regional economic downturns, political instability, or other local disruptions. It also restricts our growth potential and market expansion opportunities.
- Operating primarily in Mumbai may lead potential clients to perceive us as a regional player rather than a national player. This perception could hinder our ability to compete effectively against larger, national camera rental and broadcasting companies, potentially impacting our market share and growth prospects.

18. We rely on warranties during purchase of camera equipment, Our Company has no insurance coverage which may adequately protect us against losses, and successful claims against us that exceed our insurance coverage could harm our results of operations and diminish our financial position.

Our company operates in the camera rental business, where the high-value equipment we provide to our customers is central to our operations. However, we currently have no insurance coverage that adequately protects us against potential losses, relying instead on the warranties provided by manufacturers when the equipment is purchased. This reliance on manufacturer warranties presents significant risks that could adversely affect our business.

While manufacturer warranties may cover certain defects or malfunctions in the equipment, they typically do not extend to losses arising from theft, accidental damage, or misuse during the rental period. Additionally, these warranties are usually limited in scope and duration, and may not cover all types of repairs or replacements that may be required as a result of the equipment being used in various environments by different customers.

In the absence of comprehensive insurance coverage, any loss, theft, or damage to our equipment that is not covered by these warranties would require us to bear the full cost of repair or replacement. Such unexpected expenses could have a substantial impact on our cash flow and profitability. Moreover, if a customer or third party were to file a successful claim against us—for instance, in the event of personal injury caused by equipment failure or dissatisfaction with our services—the financial burden of such claims could far exceed the protection offered by manufacturer warranties.

Without adequate insurance, we are exposed to significant financial risks that could harm our results of operations and diminish our financial position. The lack of comprehensive coverage could lead to severe financial strain, disrupt our business operations, and threaten the long-term viability of our company.

19. Company does not have a listed peer which is engaged in a similar line of business.

The company does not have a listed peer which is engaged in a similar line of business which could lead to difficulties in attracting institutional investors or analysts, who typically rely on peer comparisons to evaluate investment opportunities.

The Company operates in a unique or specialized market segment where there are no directly comparable publicly traded peers. As a result, potential investors may face challenges in assessing the Company's relative performance, valuation, and competitive positioning. The absence of similar public companies means that there may be limited benchmarks for financial performance, growth prospects, and market dynamics, which could lead to increased volatility in the Company's stock price and uncertainty in evaluating its financial and operational health.

Furthermore, the lack of comparable companies complicates the process of assessing management's effectiveness, corporate governance, and business strategy, as there are few industry-specific comparisons to draw upon. This could also lead to difficulties in attracting institutional investors or analysts, who typically rely on peer comparisons to evaluate investment opportunities.

Additionally, the absence of peer companies may imply a higher degree of market or operational risk as the Company might face unique competitive or regulatory challenges that cannot be easily mitigated or predicted based on the experiences of others in the market.

20. We require a number of approvals, NOCs, licenses, registrations and permits in the ordinary course of our business. Some of the approvals are required to be obtained by our Issuer Company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.

We require several statutory and regulatory permits, licenses, and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Presently, we have applied for updating licenses and approvals in the name of "Moving Media Entertainment Limited" from "Moving Media Entertainment Private Limited". Also, we are yet to receive and renew several approvals and licenses. Some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses, or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension, or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business.

21. Our Company has unsecured loans which are repayable on demand. Any demand from lenders for repayment of such unsecured loans may adversely affect our cash flows.

Our Company has availed unsecured loans which may be recalled by lenders at any time with or without the existence of an event of default, on short or no notice. As of March 31, 2025, such loans amounted to ₹ 1,580.35 lakhs. In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, any such demand may affect our business, cash flows, financial condition and results of operations. For further details, please refer the chapter titled "Statement of Financial Indebtedness" on page 209 of this Red herring prospectus.

22. Our Company logo is objected with Registrar of Trademark; any infringement of our brand name or failure to get it registered may adversely affect our business. Further, any kind of negative publicity or misuse of our brand name could hamper our brand building efforts and our future growth strategy could be adversely affected

The company carrying out its business activities with logo using it as our brand identity. We have applied for its registration under Class 09 of the Trademark Act, 1999, with application numbers 6466816, however the same is been objected as on June 10, 2025. As of the date of this Red Herring Prospectus, the status of application is "Objected". We are carrying out our business using our above referred logo, and have built a strong association between our logo and our company, earning recognition, trust among leading corporate houses and high-net-worth individuals. The presence of similar or identical trademarks could lead to objections or opposition during the registration process, potentially delaying or preventing successful registration. If another company with a similar name has already secured trademark rights, we may face legal challenges, including cease-and desist notices or litigation, which could result in rebranding costs. The

existence of similar names in the market may lead to consumer confusion, affecting brand recognition and diminishing the distinctiveness of our firm. If registration is denied or restricted, our ability to take legal action against infringers or misuse of our brand name may be weakened. In case of a trademark conflict, we may be required to modify our business name or branding, leading to financial and operational burdens.

- 23. *There were some instances in past for delay in depositing the statutory dues with the concerned offices of the departments on a few instances. While no show-cause notice has been issued against our Company till date, in the event of any cognizance being taken by the concerned authorities in respect of above delays in filings, actions may be taken against our Company and its directors, which could impact our business and financial performance.***

Details of such delays including period of delay, range of delays as per payment dates and reason for delay is tabulated as below:

FY	Return Type	Month	Due Date	Date of Payment	Delay in Days
2024-25	EPF	May-24	15-Jun-24	8-Jul-24	23
2024-25	EPF	Dec-24	15-Jan-25	17-Jan-25	2
2022-23	GSTR-3B	Sep-22	20-Oct-22	11-Nov-22	22

In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

- 25. *We intend to utilise a portion of the Net Proceeds for funding our capital expenditure requirements. We are yet to place orders for such capital expenditure machinery.***

There can be no assurance that we will be able to place orders for such cameras and equipments in a timely manner or at all. Further, in the event of any delay in placement of such orders, the proposed schedule implementation and deployment of the Net Proceeds may be extended or may vary accordingly.

- 26. *Our Promoters, some of our Directors, Senior Management and Key Managerial Personnel are interested in our Company’s performance in addition to their remuneration and reimbursement of expenses.***

In addition to regular remuneration or benefits or sitting fees and reimbursement of expenses, our Promoters, some of our Directors, Senior Management and KMPs of our Company are otherwise interested in our Company. This interest is to the extent of their interest in the performance linked incentives, contracts, agreements/arrangements entered into or to be entered into by our Company with any company which is promoted by them or in which they hold directorships or any partnership firm in which they are partners, Equity Shares, if any, held by them and their relatives (together with other distributions in respect of Equity Shares), or held by the entities in which they are associated as partners, promoters, directors, proprietors, members or trustees, or that may be subscribed by or allotted to the companies, firms, ventures, trusts in which they are interested as promoters, directors, partners, proprietors, members or trustees, pursuant to the Offer, and any dividend and other distributions payable in respect of such Equity Shares. We cannot assure that our Promoters, Directors, Senior Management and our KMPs will exercise their rights as Shareholders to the benefit and best interest of our Company. As Shareholders of our Company, our Promoters, Directors, Senior Management or KMPs may

take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For further information on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see “Our Management” and “Our Promoters and Promoter Group” on pages 158 and 178, respectively.

27. None of the Directors of the Company have experience of being a director of a public listed company.

The Directors of the Company do not have the experience of having held directorship of public listed company. Accordingly, they have limited exposure to management of affairs of the listed company which inter-alia entails several compliance requirements and scrutiny of affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, the Company will require to adhere strict standards pertaining to accounting, corporate governance and reporting that it did not require as an unlisted company. The Company will also be subject to the SEBI Listing Regulations, which will require it to file audited annual and unaudited quarterly reports with respect to its business and financial condition. If the Company experiences any delays, we may fail to satisfy its reporting obligations and/or it may not be able to readily determine and accordingly report any changes in its results of operations as promptly as other listed companies. Further, as a publicly listed company, the Company will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of the Company’s disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, the Board of Directors of the Company may have to provide increased attention to such procedures and their attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

28. Any significant increase in repair and maintenance costs of Camera Equipments beyond our budget or inability to provide quality customer service and support may adversely affect our relationships with our existing and prospective customers, and in turn can adversely impact our business, results of operations and financial condition.

We are required to incur significant repair and maintenance expenditure in respect to the camera equipment, the cost of which we may be unable to recoup. While using the equipment, our customers face technical or operational issues such as failure of camera or lenses, which is required to be resolved by our customer support team in a timely and efficient manner. Any significant rise in repair and maintenance expenses, beyond our budget and without corresponding revenue, could increase costs and adversely affect our results of operations and financial condition. In addition, we may be unable to cure the faults or respond in a timely manner due to inadequacy of resources or any other operational issues, which may result in adversely affecting client relationships leading to termination of agreements/arrangements, non-renewal of agreements, or delay or withholding/ deduction of payments due under such agreements. Further, any failure by us to offer quality customer service and support in a timely manner or to meet quality standards, may reduce our profits and could adversely affect our business, financial condition and results of operations. Further, our clients may also bring claims against us or penalize us, which could lead to provision for doubtful accounts, an increase in collection cycles for accounts receivable or litigation costs. Any such occurrence may also result in damage to our reputation and loss of existing and future clients, which could adversely affect our business prospects, results of operations and financial condition.

Our sales are highly dependent on our reputation and on positive recommendations from our existing customers. Any failure to maintain quality customer or product support, or a market perception that we do not maintain quality enterprise or product support, could adversely affect our reputation, our ability to rent the camera products to existing or new customers, and in turn our business, results of operations and financial condition.

29. Our ability to maintain continuing relationships with our customers is essential to the growth, profitability and our results of operations.

Any impairment of our long-term relationships with our customers would adversely affect our business, results of operations and financial conditions. Our ability to maintain continuing relationships with our customers is essential to the growth, profitability and our results of operations. In order for us to maintain or improve our results of operations, it is important that we establish, maintain and expand our relationships with new and existing customers and that our existing customers continue to use our camera equipment. Our customers typically are not obligated to renew, upgrade, or expand their contractually agreed terms with us as we do not have any exclusive arrangements with our customers. The growth of our business depends in part on our customers expanding their use of our products, which can be difficult to predict.

Our ability to renew or expand our customer relationships may decrease or vary as a result of a number of factors, including our customers' satisfaction or dissatisfaction with the services, their reliability, our pricing, the effects of general economic conditions, competitive offerings or alternatives, or reductions in our customers' spending levels. In addition, our customers' decisions to expand the deployment of our products depend on a number of factors, including general economic conditions, the effectiveness and value proposition of our products, the ability of our sales teams and customer support teams to assist our customers and our customers' satisfaction with our products and support services. If our efforts to expand within our existing customer base are not successful, our business operations and financial performance may be adversely impacted.

30. We could become liable to customers, suffer adverse publicity and incur substantial costs as a result of defects in our services, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

Any failure or defect in our services could result in a claim against us for damages, regardless of our responsibility for such a failure or defect. Although we attempt to maintain quality standards, we cannot assure that all our services would be of uniform quality, meet the customer standards which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity. Also, our business is dependent on the trust our customers have in the quality of our services. Any negative publicity regarding our company, brand, or services or any other unforeseen events could affect our reputation and our results from operations.

31. Orders placed by customers may be delayed, modified or cancelled, which may have an adverse effect on our business, financial condition and results of operations.

We may encounter problems in executing the orders in relation to our services or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may postpone the delivery of such services or cause its cancellation. Due to the possibility of cancellations or changes in scope and schedule of delivery of such services, resulting from our customers discretion or problems we encounter in the delivery of such services or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such services can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. In addition, even where a delivery proceeds as scheduled, it is possible that the customers may default or otherwise fail to pay amounts owed.

32. Heavy Dependence on Our Promoters and Key Personnel including our senior management, directors and our ability to attract and retain them when necessary.

We rely heavily on the continued services of our Promoters, supported by our management team, for the ongoing success and growth of our organization. Our Promoters play a critical role in executing the day-to-day operations of our business. The loss of their services or an inability to find suitable replacements could adversely impact our business operations and growth strategies. For details about our Promoters, please refer to the chapter titled "Our Promoters and Promoter Group" beginning on page 163 of this Red herring prospectus.

Our operations also depend on our ability to attract and retain qualified personnel. While we currently believe we have an adequate pool of skilled employees, there is no assurance that we will continue to attract or retain such talent, particularly given the competitive demand for qualified personnel. Losing key employees could negatively affect our business operations, financial condition, and results. Replacing skilled personnel may take considerable time and require extensive training, which could disrupt our operations. Additionally, to remain competitive in attracting qualified talent, we may need to increase employee compensation at a faster rate than in the past.

Our senior management team is integral to our success. However, we cannot guarantee the retention of all members of our senior management or key personnel. The loss of senior leadership or our inability to recruit new talent could hinder our growth, disrupt day-to-day operations, delay ongoing or planned projects, and impair our ability to establish, maintain, and expand customer relationships. For details about our management and KMP please refer to the chapter titled "Our Management" beginning on page 155 of this Red herring prospectus

33. Changing regulations in India could lead to new compliance requirements that are uncertain. The regulatory environment in which we operate is evolving and is subject to change.

The Government of India may implement new laws or other regulations that could affect the manufacturing industry or the sectors we serve, which could lead to new compliance requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. Our business and financial performance could be adversely affected by any unexpected or onerous

requirements or regulations resulting from any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations. Any such changes and the related uncertainties with respect to the implementation or change in the legal framework may have a material adverse effect on our business, financial condition and results of operations.

34. *Brand recognition is important to the success of our business, and our inability to build and maintain our brand names will harm our business, financial condition and results of operation.*

Brand recognition is important to the success of our business. Establishing and maintaining our brand name in the industry or for people relying on our company is critical to the success of the customer acquisition process of our business. Although, we expect to allocate significant number of resources, financial and otherwise, on establishing and maintaining our brands, no assurance can be given that our brand names will be effective in attracting and growing user and client base for our businesses or that such efforts will be cost-effective, which may negatively affect our business, financial condition and results of operations.

However, our Company will ensure necessary procedures and practices as permitted by laws and regulatory guidelines to address situations of conflict of interest as and when they arise. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

35. *Our inability to obtain no objections from our lenders for the Issue, in a timely manner or at all could adversely affect raising of funds.*

Our Company is required to obtain prior no objections from lender banks and Institution pursuant to restrictive covenants contained in the loan documents. Our Company have made application for no-objection / consents from the all the lenders and has yet to obtained their consent. Our inability to obtain such no objection certificate in a timely manner or at all, may adversely affect timely raising of funds.

36. *Counterparty credit risk, delay or non-receipt of payments.*

Our Company's business is working capital intensive and hence, trade receivables form a major part of our current assets. The results of operations of our business are dependent on our ability to effectively manage our trade receivables. We are unable to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. During the Financial Year ended on March 31, 2025, 2024 and 2023 our trade receivables were ₹ 1,478.48 lakhs, ₹ 746.14 lakhs and ₹ 269.27 lakhs. We may be subject to working capital risks due to delays or defaults on payment by clients, which may restrict our ability to procure new equipment and make payments when due. In addition, any delay or failure on our part to supply the required quantity or quality of products, within the time stipulated by our agreements, to our customers may in turn cause delay in payment or refusal of payment by the customer. Such defaults/delays by our customers in meeting their payment obligations to us may have a material effect on our business, financial condition and results of operations. Such situation may require an additional and, consequently, higher finance cost which will adversely impact our profitability.

37. *Guarantees from Promoters as well as others have been taken in relation to the debt facilities provided to us.*

In the event any of the guarantors withdraws or terminates this guarantee, the lender for such facilities may ask for alternate guarantee/s, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantee/s satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information, please see the chapter titled "*Statement of Financial Indebtedness*" beginning on page 212 of this Red herring prospectus.

38. *As we continue to grow, we may not be able to effectively manage our growth and the increased complexity of our business, which could negatively impact our brand and financial performance.*

The success of our business will depend greatly on our ability to effectively implement our operational and growth strategies. As a part of our growth strategy, we aim to, among other things, continue to grow our businesses as and when opportunities exist including expansion in product base, focus on consistently meeting quality standards, deepen and expand our geographical presence, strengthening up our business through effective branding, promotional and digital activities. In pursuing our growth strategy, we will require additional capital investments and cash outlays, which may have a material impact on our cash flows and results of operations. Our operating expenses and capital requirements may increase significantly pursuant to our expansion and diversification plans. Our ability to manage our growth effectively

requires us to forecast accurately our sales, growth and manufacturing capacity and to expend funds to improve our operational, financial and management controls, reporting systems and procedures. An inability to implement our future business plan, manage our growth effectively or failure to secure the required funding on favourable terms or at all could have a material and adverse effect on our business, future financial performance and results of operations.

39. *Difference in the name mentioned in the KYC documents of our Promoters and/or Director*

There are differences between the names in the KYC documents and the names in the MCA data for our Promoters and/or Directors namely Mr. Kuuldeep Beshawar Nath Bhargava. These discrepancies can lead to administrative and legal challenges, such as delays in regulatory approvals, difficulties in verifying the identities of key personnel, and complications in enforcing contracts or legal proceedings. Such issues could negatively affect our business operations, financial condition, and overall success.

The names in this Red herring prospectus are based on the MCA data. Consequently, we cannot guarantee the accuracy of the addresses and dates of birth mentioned in this document. These inconsistencies may pose risks to our company's smooth functioning and regulatory compliance.

40. *We may explore the diversification of our business and the exploring new avenues. These diversifications and our other strategic initiatives may not be successful, which may adversely affect our business and results of operations.*

In order to achieve our goal, we are constantly evaluating the possibilities of expanding our business through new models, innovations and / or starting new services. Although we believe that there are synergies between our current business and our expansion plans, we do have experience or expertise in these new areas. These new businesses and modes of delivery and the implementation of our strategic initiatives may pose significant challenges to our administrative, financial and operational resources, and additional risks, including some of which we are not aware of. The early stages and evolving nature of some of our businesses also make it difficult to predict competition and consumer demand therein. Our strategic initiatives require capital and other resources, as well as management attention, which could place a burden on our resources and abilities. In addition, we cannot assure you that we will be successful in implementing any or all of our key strategic initiatives. If we are unable to successfully implement some or all of our key strategic initiatives in an effective and timely manner, or at all, our ability to maintain and improve our leading market position may be negatively impacted, which may have an adverse effect on our business and prospects, competitiveness, market position, brand name, financial condition and results of operations.

41. *We face intense competition in our businesses, which may limit our growth and prospects. Our Company faces significant competition from other companies in camera rental services*

We operate in a highly competitive market and face significant competition based on factors such as execution, depth of product and service offerings, innovation, reputation, and price. Our competitors may possess certain advantages, including but not limited to:

- Substantially greater financial resources;
- A longer operating history in certain business segments;
- Stronger brand recognition among consumers;
- Larger customer bases in and outside India; and
- More diversified operations, enabling profits from high-performing segments to support less profitable ones.

These competitive pressures could impact our business, and our growth depends on our ability to respond effectively and promptly to these challenges.

The market for our products and services is competitive, encompassing both organized and unorganized players. Key competition factors include service quality, customer support, pricing, and timely delivery. In particular, pricing competition in the camera and lens rental industry is intense, and this is expected to persist. Such pressures may limit our ability to maintain or increase sales and profitability.

Our continued success hinges on our ability to compete effectively against current and future competitors. The entry of new competitors increases the risk of losing existing clients or failing to attract new ones, which could adversely affect our business. Additionally, some clients may choose to utilize their own resources to purchase equipment instead of outsourcing, further intensifying competition.

Some competitors may be larger, have stronger financial backing, or possess more experienced management teams. Furthermore, the pricing premium associated with our expertise may lead new entrants to accept lower margins to secure contracts, intensifying market pressure.

Competitive dynamics and broader economic conditions may also affect our pricing strategies. If competitors offer significant discounts or other favourable terms, we may be compelled to match these terms, potentially impacting our margins and operating results.

There is no assurance that we will continue to compete effectively or maintain profitability in the face of rising competition. Failure to do so could adversely affect our business, operational results, and financial condition.

42. We operate in a highly competitive and fragmented industry with low barriers for entry.

We face significant competition and if we fail to compete effectively, our business, prospects, financial condition and results of operations will be adversely affected. The market for our products is competitive on account of existence of both the organized and unorganized players. Competition occurs generally on the key attributes such as quality of services, customer support network, pricing and timely delivery. Competition based on pricing terms in the camera and lens rental industry is intense. We expect that the level of competition will remain high, which could potentially limit our ability to maintain or increase our sales and profitability. Our continued success depends on our ability to compete effectively against our existing and future competitors. With the potential influx of new competitors, our ability to retain our existing clients and to attract new clients is critical to our continued success. We also face the risk of our current or prospective clients deciding to utilize their own resources to purchase the requisite equipment as a substitute of outsourcing. Some of our competitors may be larger than us, have stronger financial resources or a more experienced management team. Further, the pricing premium associated with our experience may cause some of the new entrants to accept lower margins in order to be awarded work. There can be no assurance that we can continue to compete effectively with our competitors in the future, and failure to compete effectively against our current or future competitors may have an adverse effect on our business, results of operations and financial condition. The intense competition we face in our businesses, and general economic and business conditions may affect our ability to appropriately price our services. If our competitors offer deep discounts on certain services, we may be compelled to lower our prices or offer other favourable terms in order to compete effectively, which may adversely affect our margins and our operating results. As a result, there can be no assurance that we will not encounter increased competition in the future. Nor can there be any assurance that our Company will, in light of competitive pressures, be able to remain profitable or, if profitable, maintain its current profit margins.

43. Dependence upon transportation services for supply and transportation of our products are subject to various uncertainties and risks, and delays in delivery may result in rejection of products by customer.

We do not have an in-house transportation facility and we rely on third party transportation and other logistic facilities at every stage of our business activity including for procurement of products from our suppliers and for transportation of products to our customers. For this purpose, we hire services of transportation companies. However, we have not entered into any definitive agreements with any third party transport service providers and engage them on a needs basis. Additionally, availability of transportation solutions in the markets we operate in is typically fragmented. The cost of our goods carried by such third party transporters is typically much higher than the consideration paid for transportation, due to which it may be difficult for us to recover compensation for damaged, delayed or lost goods.

44. Our inability to obtain no objections from our lenders for the Issue, in a timely manner or at all could adversely affect raising of funds.

Our Company is required to obtain prior no objections from lender banks and Institution pursuant to restrictive covenants contained in the loan documents. Our Company have made application for no-objection / consents from the all the lenders and has yet to obtained their consent. Our inability to obtain such no objection certificate in a timely manner or at all, may adversely affect timely raising of funds.

45. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

- 46. *The nature of our business exposes us to liability claims and contract disputes and our indemnities may not adequately protect us. Any liability in excess of our reserves or indemnities could result in additional costs, which would reduce our profits.***

Time is often of the essence in our business work. In the event there are delays in our current or future service, we will not be able to get extensions from our customers. Further, in some understandings, in case of delay due to deficiency in services by us, clients may have the right to complete the work at our risk and cost by engaging a third party. In the event we fail to perform under the terms of a particular contract, that could adversely affect our financial conditions and business operations. Failure to effectively cover ourselves against any of these reasons could expose us to substantial costs and potentially lead to material losses. In addition, if there is a customer dispute regarding our performance or workmanship, the customer may delay or withhold payment to us.

- 47. *General economic and market conditions in India and globally could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.***

Our business is highly dependent on economic and market conditions in India and other jurisdictions where we operate. General economic and political conditions in India, such as macroeconomic and monetary policies, industry-specific trends, mergers and acquisitions activity, legislation and regulations relating to the financial and securities industries, household savings rate, investment in alternative financial instruments, upward and downward trends in the market, business and financial sectors, volatility in security prices, perceived lack of attractiveness of the Indian capital markets, inflation, foreign direct investment, consumer confidence, currency and interest rate fluctuations, availability of short-term and long-term market funding sources and cost of funding, could affect our business. Global economic and political conditions may also adversely affect the Indian economic conditions. Market conditions may change rapidly and the Indian capital markets have experienced significant volatility in the past. The Indian economy has had sustained periods of high inflation in the recent past. If inflation or real interest rates were to rise significantly, the trends towards increased financial savings might slow down or reverse, our employee costs may increase and the sales of many of our products and services may decline.

- 48. *Employee fraud or misconduct could harm us by impairing our ability to attract and retain clients and subject us to significant legal liability and reputational harm.***

Our business is exposed to the risk of employee misappropriation, fraud or misconduct. Our employees could make improper use or disclose confidential information, which could result in regulatory sanctions and serious reputational or financial harm. While we strive to monitor, detect and prevent fraud or misappropriation by our employees, through various internal control measures, we may be unable to adequately prevent or deter such activities in all cases. Our dependence upon automated systems to record and process transactions may further increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect.

While we have not been able to identify such issues in the past, there could be instances of fraud and misconduct by our employees, which may go unnoticed for certain periods of time before corrective action is taken. In addition, we may be subject to regulatory or other proceedings, penalties or other actions in connection with any such unauthorized transaction, fraud or misappropriation by our agents or employees, which could adversely affect our goodwill, business prospects and future financial performance. We may also be required to make good any monetary loss to the affected party. Even when we identify instances of fraud and other misconduct and pursue legal recourse or file claims with our insurance carriers, we cannot assure you that we will recover any amounts lost through such fraud or other misconduct.

- 49. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company even after the Issue which will allow them to determine the outcome of matters submitted to shareholders for approval.***

Post this Issue, our Promoters and Promoter Group will collectively own [●]% of our post Issue Equity Share Capital. As a result, our Promoters, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over the Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing, or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

50. *Our operating expenses include overheads that may remain fixed in the medium term. In the event there is any decline in our operating performance, we may be unable to reduce such expenses.*

Our operating expenses include various fixed costs that are not directly dependent on sales revenue. Consequently, any shortfall in sales could result in significant fluctuations in our operating results for a given period, as we may not be able to adjust these fixed costs in the short term. The impact of declining sales may be magnified since a portion of our earnings is allocated to covering these fixed expenses. As a result, period-to-period comparisons of our financial performance may not provide an accurate representation of our business operations and should not be relied upon as an indicator of future performance.

51. *The shortage or non-availability of power facilities may adversely affect our business processes and have an adverse impact on our results of operations and financial condition.*

Our business processes require a substantial amount of power facilities. We do not have arrangements for alternative / independent sources of power supply as of now. We are mainly dependent on the local electricity service provider to meet our electricity requirements, there may be factors beyond our control affecting the supply of power. Any power failure may lead to increased costs, thereby affecting profitability.

52. *There are no alternate arrangements for meeting our requirements for the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our working capital requirements through our owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital expenditure requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not yet identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer chapter titled “*Objects of the Issue*” on page 86 of this Red herring prospectus.

53. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders’ investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 181 of this Red herring prospectus.

54. *Any future acquisitions, joint ventures, partnerships, strategic alliances, tie-ups or investments could fail to achieve expected synergies and may disrupt our business and harm the results of operations and our financial condition.*

Our success will depend, in part, on our ability to expand our business in response to changing technologies, customer demands and competitive pressures. We have, in the past, explored and continue to explore opportunities on our own, through collaborations, tie-ups, strategic alliances, partnerships or joint venture across the country and regions of focus. In some circumstances, we may also decide to acquire, or invest in, complementary technologies instead of internal development. While we are currently evaluating opportunities and negotiating with several potential partners, we have not entered into any definitive agreements. The risks we face in connection with acquisitions may include integration of product and service offerings, co-ordination of R&D and marketing functions and the diversion of management’s time and focus from operating our business to addressing challenges pertaining to acquisition and integration. Our failure to address these risks or other problems encountered in connection with our acquisitions and investments could result in our failure to realize the anticipated benefits of these acquisitions or investments, cause us to incur unanticipated liabilities, and harm our business generally.

55. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders and lenders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time to meet our business needs. The issuance of fresh shares or convertible securities to raise funds could dilute the shareholding of existing shareholders, and the terms of such issuance may not always be favorable to them. If we raise funds through loans or debt instruments, it could substantially increase our interest burden and reduce our cash flows, negatively impacting our profitability and ability to pay dividends to shareholders.

Additionally, we are required to maintain certain financial ratios and comply with covenants under our financing agreements. There is no assurance that we will be able to meet these requirements or obtain the necessary consents for actions we believe are essential to operate and grow our business.

Our current level of debt, along with any new debt incurred in the future, has significant implications. Failure to comply with financial or other covenants, unless waived by lenders or otherwise resolved, could trigger the need for immediate repayment of loans, along with additional costs. In such circumstances, we may be compelled to sell assets, limit operations, or take other measures, which could adversely affect our business and hinder our growth plans.

While these covenants impose certain restrictions, they also instil financial discipline, which can benefit us in the long term by improving our financial performance. For further details, refer to the chapter titled “*Statement of Financial Indebtedness*” on page 99 and the section titled “*Financial Indebtedness*” on page 190 of this Red herring prospectus.

56. *Our KMP has been associated with our company for less than one year.*

Our Key Management Personnel, including the Company Secretary & Compliance Officer, have been associated with our Company for less than one year. As a result, they may not yet be fully accustomed to the Company’s affairs and operations. This could pose challenges in their initial ability to contribute effectively to the Company’s strategic and operational objectives.

For details regarding our Key Management Personnel and their appointments, please refer to the chapter titled “*Our Management*” beginning on page 143 of this Red herring prospectus

57. *There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all.*

In accordance with Indian law and practice, permission to list the Equity Shares will not be granted until after the Equity Shares have been issued and allotted. Approval will require all other relevant documents authorizing the issuing of our Equity Shares to be submitted. There could be a failure or delay in listing our Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

58. *Excessive reliance on our information technology systems and their failure could harm our relationship with customers, expose us to lawsuits or administrative sanctions or otherwise adversely affect our provision of service to customers and our internal operation.*

As part of our business strategy, we use high quality of information technology system to deliver our services in the best possible way. 62. The requirements of being a public listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources band management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. Issue Specific Risks:

63. There are restrictions on daily/weekly/monthly movements in the price of the Equity Shares, which may adversely affect a shareholders' ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Once listed, we would be subject to circuit breakers imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and

trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

64. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- a. Volatility in the Indian and global capital market;
- b. Company's results of operations and financial performance;
- c. Performance of Company's competitors,
- d. Adverse media reports on Company or pertaining to the agriculture Industry;
- e. Changes in our estimates of performance or recommendations by financial analysts;
- f. Significant developments in India's economic and fiscal policies; and
- g. Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

65. *You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions.*

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Red herring prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

66. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity shares after the issue.*

The Issue price of our equity Shares has been determined by Book Built Method. This price is based on numerous factors and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuation after the issue and may decline below the issue price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue price. For further details you may refer chapter titled "**Basis for Issue Price**" beginning on the page 97 of this Red herring prospectus.

Some of the factors which may affect our share price without limitations are as follows:

- Reports on research by analysts.
- Changes in revenue.
- Variations in growth rate of our financial indicators such as earning per share, income, profit etc.
- General Market Condition
- Domestic and International Economy.

67. *Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the Trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISKS

Industry Related Risks:

68. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

The media and entertainment industry is heavily regulated by various laws, rules, and regulations imposed by both Central and State Governments. These regulations cover content censorship, age restrictions, intellectual property laws, and advertising standards. Non-compliance with these regulations can lead to legal penalties, reputational damage, and disruptions in revenue streams. Moreover, government regulations and their implementation can change rapidly, often with little notice. Such changes can increase operational costs, impose new compliance requirements, or result in penalties for non-compliance. If we fail to adapt to these regulatory changes or adequately comply with all applicable laws, our operations could be significantly disrupted, adversely affecting our business and financial performance.

69. *Malpractices by some players in the industry affect overall performance of emerging Companies*

The industry in which our Company operates is subject to risk associated with unethical business practices such as unethical marketing, dishonest advertising, questionable pricing practices, inaccurate claims with regards to safety and efficacy of the product etc. Consumers' attitude toward the industry today is dominated by a sense of mistrust, paving a way for regulators for stricter entry barriers and introduction of code of conducts; making the entire industry environment regulated and controlled. Malpractices by some players in the industry affects the overall performance of the emerging Companies like us as the industry norms are applicable to all at parity. Any unethical business practices by any industry player or intermediary may impact our business and results of operations.

Other Risks:

70. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian Company are generally taxable in India. Any gain on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain on the sale of shares held for more than 12 months to an Indian resident, which are sold other than on a stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain on the sale of shares held for a period of 12 months or less will be subject to capital gains tax in India. Further, any gain on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

In Finance Bill 2017, section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October 2004 shall be available only if the acquisition of share is chargeable to Securities Transactions Tax (STT) under Chapter VII of the Finance (No 2) Act, 2004. In case this provision becomes effective, sale shares acquired on or after 1st day of October 2004 on which STT was not charged will attract tax under provisions of Long-Term Capital Gains.

As per Finance Bill 2018, exemption under section 10(38) for income arising from long term gains on transfer of equity share shall not be available on or after 1st day of April 2018 if the long-term capital gains exceeds ₹ 1,00,000/- p.a. Such income arising from long term gains on transfer of equity share on or after 1st day of April 2018 in excess of ₹1,00,000/- p.a. shall be chargeable at the rate of 10%. Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

As per Finance Bill 2024, For classifying assets into long-term and short-term, there will only be two holding periods: 12 months and 24 months. The 36-month holding period has been removed.

The holding period for all listed securities is 12 months. All listed securities with a holding period exceeding 12 months are considered Long-Term. The holding period for all other assets is 24 months.

The taxation of Short-Term Capital Gain for listed equity shares, a unit of an equity-oriented fund, and a unit of a business trust has been increased to 20% from 15%. Other financial and non-financial assets which are held for short term shall continue to attract the tax at slab rates.

The limit on the exemption of Long-Term Capital Gains on the transfer of equity shares or equity-oriented units or units of Business Trust has increased from Rs.1 Lakh to Rs.1.25 lakh per year. However, the rate at which it is taxed has increased from 10% to 12.5%.

The exemption limit to ₹ 1.25 lakhs has been increased for the whole of the year, whereas the tax rate has changed on 23rd July 2024.

The tax on other assets is reduced from 20% to 12.5% with effect from 23rd July 2024. On the other hand, the indexation benefit that previously was available on the sale of long-term assets has now been eliminated. However, the Government has given taxpayers an option to compute taxes on real estate transactions purchased before 23rd July 2024 either at 12.5% without indexation or at 20% with indexation.

71. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements, prepared and presented in accordance with SEBI ICDR Regulations contained in this Red herring prospectus.

As stated in the reports of the Auditor included in this Red herring prospectus under chapter “**Financial Statements as Restated**” beginning on page 183 the financial statements included in this Red herring prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Red herring prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Red herring prospectus. Accordingly, the degree to which the financial information included in this Red herring prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Red herring prospectus should accordingly be limited.

72. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

73. Financial instability in Indian Financial Markets could adversely affect our Company’s results of operation and financial condition.

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company’s business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

74. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and our industry contained in this Red herring prospectus.

While facts and other statistics in this Red herring prospectus relating to India, the Indian economy and our industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “**Our Industry**” beginning on page 107 of this Red herring prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be

comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

75. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency a magnitude, which may negatively affect our stock prices.

76. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

77. Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

78. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade the global equity markets as well generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

79. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20.00 to ₹24.00 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Amount (₹)	Cumulative Quantity	Subscription
500	24.00	500	16.67%
1000	23.00	1500	50.00%
1500	22.00	3000	100.00%
2000	21.00	5000	166.67%
2500	20.00	7500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22.00 in the above example. The Issuer, in consultation with the Book Running Lead Manager, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹22.00. Furthermore, if any surplus from the proceeds remains after meeting the total cost of construction service, equipment and utilities for the aforesaid purpose, the same will be used for our general corporate purposes, subject to limit of 25% of the amount raised by our Company through this Issue.
3. We are not acquiring any second-hand equipment.
4. The quotations relied upon by us in arriving at the above cost are valid for a specific period and may lapse after the expiry of the said period. 5. 2) Repayment/prepayment, in full or in part, of certain outstanding borrowings availed by our Company

Our Company has entered various financing arrangements with bank. The loan facilities entered by our Company include borrowings in the form of term loans and fund-based facilities. For further details, including indicative terms and conditions of such loan facilities, see **“Statement of Financial Indebtedness”** beginning on page 212 of this Red herring prospectus. Our Company proposes to utilise an aggregate amount of ₹ 900.00 Lakhs from the Net Proceeds towards full or partial repayment or prepayment of certain borrowing availed by our Company from bank.

The selection and extent of loans proposed to be repaid from our Company’s borrowings mentioned below will be based on various commercial considerations including, among others, the costs, expenses and charges relating to the facility including interest rate of the relevant loan, the amount of the loan outstanding, the remaining tenor of the loan, presence of onerous terms and conditions under the facility, levy of any prepayment penalties and the quantum thereof, provisions of any law, rules, regulations governing such borrowings, terms of prepayment to lenders, if any and mix of credit facilities provided by lenders.

Given the nature of these borrowings and the terms of repayment, the aggregate outstanding amounts under these loans may vary from time to time and our Company may, in accordance with the relevant repayment schedule, repay or refinance some of its existing borrowings prior to allotment. Accordingly, our Company may utilise the Net Proceeds for part prepayment of any such refinanced loans or repayment of any additional loan facilities obtained by it. However, the aggregate amount to be utilised from the Net Proceeds towards prepayment or repayment of loans (including refinanced or additional loans availed, if any), in part or full, would not exceed ₹ 900.00 lakhs.

The prepayment or repayment will help reduce our outstanding indebtedness and debt servicing costs, assist us in maintaining a favourable debt to equity ratio and enable utilisation of our internal accruals for further investment in business growth and expansion. In addition, we believe that the leverage capacity of our Company will improve our ability to raise further resources in the future to fund potential business development opportunities and plans to grow and expand

our business in the future. The following table provides details of loan availed by our Company as on March 31, 2025 which is proposed to be prepaid or repaid, in full or in part, from the Net Proceeds to the extent of an aggregate amount of ₹ 900.00 Lakhs:

GLOBAL ECONOMY AT LARGE

Policy Uncertainty Tests Global Resilience

The global economy is at a critical juncture. Signs of stabilization were emerging through much of 2024, after a prolonged and challenging period of unprecedented shocks. Inflation, down from multidecade highs, followed a gradual though bumpy decline toward central bank targets (Figure 1.1). Labor markets normalized, with unemployment and vacancy rates returning to prepandemic levels (Figure 1.2). Growth hovered around 3 percent in the past few years, and global output came close to potential (Figure 1.3).

However, major policy shifts are resetting the global trade system and giving rise to uncertainty that is once again testing the resilience of the global economy. Since February, the United States has announced multiple waves of tariffs against trading partners, some of which have invoked countermeasures. Markets first took the announcements mostly in stride, until the United States' near-universal application of tariffs on April 2, which triggered historic drops in major equity indices and spikes in bond yields, followed by a partial recovery after the pause and additional carve-outs announced on and after April 9. Despite significant equity market corrections in early March and April, price-to-earnings ratios in the United States remain at elevated levels in historical context, raising concerns about the potential for further disorderly corrections. April 2025 *Global Financial Stability Report* [GFSR]).

Uncertainty, especially that regarding trade policy, has surged to unprecedented levels (Figure 1.4). The degree of the surge varies across countries, depending on exposures to protectionist measures through trade and financial linkages as well as broader geopolitical relationships.

These developments come against an already-cooling economic momentum. Recent data on real activity have been disappointing, with GDP growth in the fourth quarter of 2024 trailing the forecasts in the January 2025 *World Economic Outlook* (WEO) *Update*. High-frequency indicators such as retail sales and purchasing managers' surveys point to slowing growth. In the United States, consumer, business, and investor sentiment was optimistic at the beginning of the year but has recently shifted to a notably more pessimistic stance as uncertainty has taken hold and new tariffs have been announced. In labor markets, hiring has slowed in many countries, and layoffs have risen. Meanwhile, progress on disinflation has mostly stalled, and inflation has edged upward in some cases, with an increasing number of countries exceeding their inflation targets. Services inflation, though still on a downward trend, remains above levels prior to the inflation surge, and core goods inflation has seen an uptick since November 2024. Trade has held up, but this is mostly because of an increase in Chinese exports and US imports at the end of 2024, with consumers and businesses likely front-loading ahead of tariffs that were anticipated back then and now are in place.

In the backdrop, domestic imbalances and policy gaps give rise to unbalanced growth while opening up potential fragilities. In some countries, such as China, growth in 2024 has been mainly supported by external demand. On the contrary, in the United States, private consumption—traditionally the major contributor to GDP growth—as a share of GDP has reached its highest point during the 2020s, and the fiscal deficit remains historically large. Within-country inequalities in households' income gains signal another potential vulnerability. In some cases, real GDP has recovered, but real GDP per capita has not (Figure 1.5, panel 1).

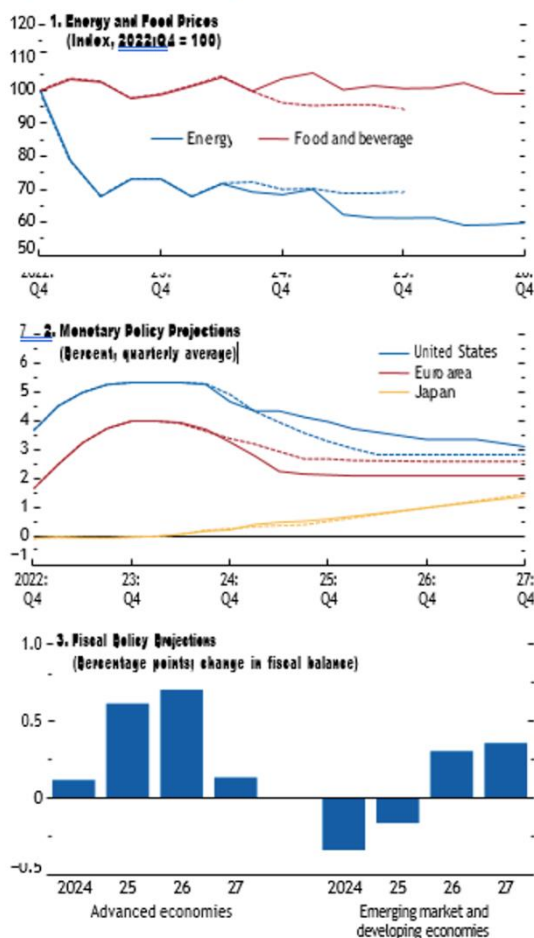

In others, median income has fallen behind, whereas incomes at the top and bottom of the distribution have recovered. Meanwhile, salient indicators of the cost of living, such as house prices and rents, have increased substantially (Figure 1.5, panel 2).

The Outlook: A Range of Possibilities

The swift escalation of trade tensions has generated extremely high levels of policy ambiguity, making it more difficult than usual to establish a central global growth outlook. Therefore, this WEO presents a range of global growth projections. First is a "reference forecast" based on measures announced as of April 4. This is what is presented in the tables of this

report and the WEO database. Second, a pre–April 2 forecast (with a cutoff date of late March) incorporates all prior policy announcements and economic developments since the October 2024 WEO. Third, a post–April 9 model-based forecast is used to quantify the implications of the announced pause and associated additional exemptions, as well as the escalating tariff rates between China and the United States.

Figure 1.16. Global Assumptions

Global Assumptions

The reference forecast is predicated on several projections for global commodity prices, interest rates, and fiscal policies (Figure 1.16). Acknowledging the high level of prevailing uncertainty, Box 1.1 presents scenarios involving additional trade, fiscal, and structural policies as well as other plausible shocks.

- Commodity price projections:** Prices of fuel commodities are projected to decrease in 2025 by 7.9 percent, with a 15.5 percent decline in oil prices and a 15.8 percent drop in coal prices offset by a 22.8 percent increase in natural gas prices, the latter driven up by colder-than-expected weather and the halt of Russian gas flow to Europe through Ukraine since January 1. Nonfuel commodity prices are projected to increase by 4.4 percent in 2025. Projected food and beverage prices have been revised upward compared with those in the January 2025 WEO

Update.

- Monetary policy projections:** The Federal Reserve and the European Central Bank are expected to continue to reduce interest rates in the coming quarters, albeit at different paces from one another. In the United States, the federal funds rate is projected to be down to 4 percent at the end of 2025 and reach its long-term equilibrium of 2.9 percent at the end of 2028. In the euro area, 100 basis points in cuts are expected in 2025 (with three cuts having already occurred this year), representing two more 25 basis point cuts than in the assumptions underlying the October 2024 WEO, bringing the policy rate to 2 percent by the middle of the year. In Japan, policy rates are expected to be lifted at a similar pace as assumed in October 2024, gradually rising over the

medium term toward a neutral setting of about 1.5 percent, consistent with keeping inflation and inflation expectations anchored at the Bank of Japan's 2 percent target.

- Fiscal policy projections:** Governments in advanced economies on average are expected to tighten fiscal policy in 2025–26 and, to a lesser extent, in 2027. The general government structural-fiscal-balance- to-GDP ratio is expected to improve by 1 percentage point in the United States in 2025. Yet it is worth noting that under current policies, US public debt fails to stabilize, rising from 121 percent of GDP in 2024 to 130 percent of GDP in 2030.

These projections do not incorporate measures that remain under discussion at the time of publication, notably, the net expansionary US budget resolution (currently, most provisions under the Tax Cuts and Jobs Act are assumed to expire at the end of 2025).

In the euro area, under the reference forecast, the primary deficit in Germany is expected to widen by about 1 percent of GDP by 2030 relative to 2024 and by about 4 percent of GDP relative to the January WEO forecast for 2030, with the increase driven primarily by higher defense spending and public investment. This is assumed to generate spillovers to France, Italy, and Spain. The euro area debt-to-GDP ratio is expected to increase from its current 88 percent to 93 percent in 2030, although there is significant uncertainty surrounding the assessment of the economic impact of the additional fiscal spending.

In emerging market and developing economies, primary fiscal deficits are projected to widen in 2025 by 0.3 percentage point on average, followed by fiscal tightening starting in 2026. In China, the structural-fiscal-balance-to-GDP ratio is expected to deteriorate by 1.2 percentage points in 2025. Public debt in emerging market and developing economies continues to rise from its current level of 70 percent of GDP, reaching a projected 83 percent in 2030.

Trade policy assumptions:

Tariff announcements between February 1 and April 4, with specific details on their implementation, are included in the reference forecast. On February 1, executive orders signed by US President Donald J. Trump imposed tariffs on Canada, China, and Mexico. An additional tariff of 10 percent on all imports from China came into effect on February 4, and another 10 percent was imposed on March 4. China responded with tariffs of 10 to 15 percent on imports of select US agricultural products, energy commodities, and farm equipment, which took effect on February 10, and on imports of agricultural products, which took effect on March 10. Tariffs of 25 percent on all nonenergy goods imports from Canada (for energy, 10 percent) and of 25 percent on all imports from Mexico took effect on March 4, with the exemption of goods compliant with the United States–Mexico–Canada Agreement (USMCA). Canada announced 25 percent counter tariffs on roughly 40 percent of Canadian imports of goods from the United States. Mexico indicated the intention to respond without specifying the measures to be employed; hence, the reference forecast includes no additional tariff imposed on Mexican imports from the United States. The United States also expanded tariffs on steel and aluminum, effective March 12, removing all exemptions to the 25 percent tariff on steel imports and increasing the tariff rate on aluminum from 10 to 25 percent. On March 26, the United States announced a 25 percent tariff on all automobiles and auto parts, excluding US content in auto and auto parts exports. This tariff came into effect on April 3 for autos, while implementation for auto parts was postponed to May 3.

The US Fair and Reciprocal Plan was introduced on April 2, imposing a 10 percent minimum tariff on all countries other than Canada and Mexico and country-specific rates as high as 50 percent for roughly 60 countries. The universal 10 percent minimum tariff took effect on April 5, and the other tariffs were set to take effect on April 9. Exemptions applied to categories of goods deemed critical, such as pharmaceuticals, semiconductors, energy, and certain minerals. Countermeasures from Canada, announced on April 3, consisted of 25 percent tariffs on non-USMCA-compliant fully assembled vehicles imported from the United States. On April 4, China announced 34 percent tariffs, matching the increase in US duties on imports from China, to take effect on April 10.

Under the reference forecast, trade policy uncertainty is assumed to remain elevated through 2025 and 2026. The perceived unpredictability of the current trade landscape is evident from the significant spike in the daily trade policy indicator (Caldara and others 2020), which surged more than four standard deviations in just three days after April 2, despite the disclosure of the details of the expected tariffs.

Growth Forecast for Emerging Market and Developing Economies

For emerging market and developing economies, growth under the reference forecast is projected to drop to 3.7 percent in 2025 and 3.9 percent in 2026, following an estimated 4.3 percent in 2024. This is 0.5 and 0.4 percentage points lower, respectively, compared with the rate projected in the January 2025 WEO Update.

- After a marked slowdown in 2024, growth in emerging and developing Asia is expected to decline further to 4.5 percent in 2025 and 4.6 percent in 2026. Emerging and developing Asia, particularly Association of Southeast Asian Nations (ASEAN) countries, has been among the most affected by the April tariffs. For China, 2025 GDP growth is revised downward to 4.0 percent from 4.6 percent in the January 2025 WEO Update. This reflects the impact of recently implemented tariffs, which offset the stronger carryover from 2024 (due to a stronger-than-expected fourth quarter) and fiscal expansion in the budget. Growth in 2026 is also revised downward to 4.0 percent from 4.5 percent in the January 2025 WEO Update on the back of prolonged trade policy uncertainty and the tariffs now in place. For India, the growth outlook is relatively more stable at 6.2 percent in 2025, supported by private consumption, particularly in rural areas, but this rate is 0.3 percentage point lower than that in the January 2025 WEO Update due to higher levels of trade tensions and global uncertainty.
- For Latin America and the Caribbean, growth is projected to moderate from 2.4 percent in 2024 to 2.0 percent in 2025, before rebounding to 2.4 percent in 2026. The forecasts are revised downward by 0.5 percentage point for 2025 and 0.3 percentage point in 2026 compared with those in the January 2025 WEO Update. The revisions owe largely to a significant downgrade to growth in Mexico, by 1.7 percentage points for 2025 and 0.6 percentage point for 2026, reflecting weaker-than-expected activity in late 2024 and early 2025 as well as the impact of tariffs imposed by the United States, the associated uncertainty and geopolitical tensions, and a tightening of financing conditions.
- Growth in emerging and developing Europe is projected to slow down considerably, from 3.4 percent in 2024 to 2.1 percent in 2025 and 2026. This reflects a sharp drop in growth in Russia from 4.1 percent in 2024 to 1.5 percent in 2025 and to 0.9 percent in 2026 as private consumption and investment decelerate amid reduced tightness in the labor market and slower wage growth. Compared with that projected in the January 2025 WEO Update, growth in Russia has been revised slightly, upward for 2025 thanks to stronger-than-expected outturns in the data for 2024. For Türkiye, growth is projected to bottom out in 2025 at 2.7 percent and accelerate to 3.2 percent in 2026, owing to recent pivots in monetary policy.
-

- The Middle East and Central Asia is projected to come out of several years of subdued growth, with the rate accelerating from an estimated 2.4 percent in 2024 to 3.0 percent in 2025 and to 3.5 percent in 2026 as the effects of disruptions to oil production and shipping dissipate and the impact of ongoing conflicts lessens. Compared with that in January, the projection is revised downward, reflecting a more gradual resumption of oil production, persistent spillovers from conflicts, and slower-than-expected progress on structural reforms.
- For sub-Saharan Africa, growth is expected to decline slightly from 4 percent in 2024 to 3.8 percent in 2025 and recover modestly in 2026, lifting to 4.2 percent. Among the larger economies, the growth forecast in Nigeria is revised downward by 0.2 percentage point for 2025 and 0.3 percentage point for 2026, owing to lower oil prices, and that in South Africa is revised downward by 0.5 percentage point for 2025 and 0.3 percentage point for 2026, reflecting slowing momentum from a weaker-than-expected 2024 outturn, deteriorating sentiment due to heightened uncertainty, the intensification of protectionist policies, and a deeper slowdown in major economies. South Sudan has a downward revision of 31.5 percentage points for 2025 on account of the delay in the resumption of oil production from a damaged pipeline

Inflation Forecast

Under the reference forecast, global headline inflation is expected to decline to 4.3 percent in 2025 and to 3.6 percent in 2026. Inflation is projected to converge back to target earlier in advanced economies, reaching 2.2 percent in 2026, compared with emerging market and developing economies, for which it declines to 4.6 percent over the same time horizon. Compared with that in the January 2025 WEO Update, the global inflation forecast is slightly higher. For advanced economies, the inflation forecast for 2025 has been revised upward by 0.4 percentage point since January. The United Kingdom and the United States stand out in both the direction and the magnitude of their revisions. Compared with those in the January 2025 WEO Update, the UK inflation forecast has been revised upward by 0.7 percentage point and the US forecast by 1.0 percentage point. For the United States, this reflects stubborn price dynamics in the services sector as well as a recent uptick in the growth of the price of core goods (excluding food and energy) and the supply shock from recent tariffs. In the United Kingdom, it primarily reflects one-off regulated price changes. In the euro area, the forecast is unchanged. Among emerging market and developing economies, the revisions are mixed. In emerging and developing Asia, inflationary pressures are expected to be even more muted, with a downward revision of 0.5 percentage point to 2025 forecasts relative to those in January. After a series of downward surprises, inflation in China is expected to remain subdued (Figure 1.17, panel 1). In emerging and developing Europe, Russia and Ukraine have seen upward revisions for 2025.

INDIAN INDUSTRY OVERVIEW

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP for FY25 is estimated at Rs. 33.10 lakh crore (US\$ 3.8 trillion) with growth rate of 9.9%, compared to Rs. 30.12 lakh crore (US\$ 3.5 trillion) in FY24. Strong domestic

demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the second half of FY25. In FY25, India's exports stood at Rs. 37.31 lakh crore (US\$ 433.56 billion), with Engineering Goods (26.88%), Petroleum Products (13.86%) and electronic goods (8.89%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing.

In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable because of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

MARKET SIZE

Real GDP for FY25 is estimated at Rs. 187.95 lakh crores (US\$ 2.2 trillion) with growth rate of 6.5%, compared to Rs. 176.51 lakh crore (US\$ 2.06 trillion) for FY24. As on Jan 2025, there are 118 unicorn startups in India, with a combined valuation of over Rs. 3.0 lakh crore (US\$ 354 billion). The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between same time periods. The Current Account Deficit (CAD) stood at Rs. 98,095 crore (US\$ 11.5 billion) for Q3 of FY25 as compared to Rs. 88,712 crore (US\$ 10.4 billion) in Q3 of FY24. This was largely due to increase in merchandise trade deficit.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- The HSBC India Manufacturing PMI increased to 58.4 in April 2025, up from 58.1 in March 2025, based on preliminary estimates. Government Initiatives

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, a number of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, is aimed at creating immense opportunities in India. The FICCI EY media and entertainment report 2023 said that in 2023, music streaming in India had an audience of approximately 185 million of which the paid subscriber base was just around 7.5 million.

About 1 million music streams were played every 3 minutes in FY23, totalling 460 million streams per day, according to a report by RedSeer Strategy Consultants. Spotify led India's music and audio streaming market in FY23 with a 26% share, as compared to just 11% share in FY20.

Growth of the sector is attributable to the trend of platform such as YouTube that continues to offer recent and video content-linked music for free, which is expected to drive the paid OTT music sector reaching ~5 million end-users by 2023, generating revenue of ~Rs. 2 billion (US\$ 27 million).

By 2025, the number of connected smart televisions are expected to reach ~40-50 million. 30% of the content viewed on these screens will be gaming, social media, short video, and content items produced exclusively for this audience by

television, print and radio brands. By 2025, ~600-650 million Indians, will consume short-form videos, with active users spending up to 55 to 60 minutes per day.

OTT video services market (video-on-demand and live) in India is likely to grow US\$ 4.1 billion in 2024 and reach US\$ 7 billion by 2027, driven by rapid developments in online platforms and increased demand for quality content among users.

ROAD AHEAD

The Indian M&E industry is on an impressive growth path. The industry is expected to grow at a much faster rate than the global average rate. This can be majorly credited to rising incomes, increasing internet penetration and a growing push toward digital adoption.

In the long run, growth in the M&E industry is expected in retail advertisement on the back of several players entering the food and beverages segment, E-commerce gaining more popularity in the country, and domestic companies testing out the waters. India's rural regions are expected to be the next regions for growth.

India has also gotten on board with 5G and is already planning for 6G well ahead of the future. This push towards digital adoption especially in the rural regions will provide advertisers and publishers with an immense opportunity to capture untapped markets and help grow India's media and entertainment industry forward..

COMPETITION

The equipment rental industry is characterized by a diverse range of competitors, each offering varying levels of service, quality, and pricing. Our company operates in a highly competitive market where both established firms and emerging players vie for market share by providing a wide array of photographic equipment on a rental basis. This includes cameras, lenses, lens filters, lights, camera rigs, and other essential accessories.

At the domestic level, we face competition from well-known companies with strong brands, wide distribution networks, and cost advantages.

Key Competitors

National Rental Chains: These large companies have extensive inventories and operate across multiple regions, offering a wide selection of camera equipment at competitive prices. Their scale allows them to provide a broad range of products and services, but they may lack the personalized service that some customers seek. Their market dominance is often supported by strong brand recognition and significant marketing budgets.

Regional and Local Rental Companies: These firms often cater to a specific geographic area, offering more personalized service and a deep understanding of local market needs. While their inventory might be smaller compared to national chains, they often excel in customer service and flexibility. These companies may also focus on niche markets or specialized equipment, carving out a loyal customer base.

Online Rental Platforms: The rise of digital platforms that offer camera equipment rentals has introduced a new level of convenience and accessibility to the market. These platforms typically operate on a direct-to-consumer model, offering competitive pricing and the ease of online booking and home delivery. However, they may lack the in-person support and expertise that traditional rental companies provide, which can be a disadvantage for customers who need technical advice or immediate assistance.

Retailers and Manufacturers: Some camera retailers and manufacturers have entered the rental market, leveraging their existing brand loyalty and extensive product knowledge. These companies often have the advantage of offering the latest equipment directly from the source, but they may focus more on sales than rentals, potentially leading to less competitive rental pricing and limited customer service options in this area.

Our company distinguishes itself in this competitive landscape through a combination of high-quality equipment, comprehensive service offerings, and customer-centric operations. We focus on maintaining an up-to-date inventory that includes the latest models from top brands, ensuring that our clients have access to the best technology available. Our commitment to personalized customer service, flexible rental terms, and competitive pricing sets us apart from both large-scale rental companies and niche players.

Furthermore, our deep understanding of the media and creative industries allows us to anticipate the needs of our clients and provide tailored solutions that support their specific project requirements. By continuously investing in our inventory, technology, and customer support systems, we aim to solidify our position as a leading provider of photographic equipment on a rental basis.

The demand for camera equipment rental industry is expected to remain strong, driven by the increasing need for high-quality content creation across various industries, including advertising, filmmaking, events, and social media. As more professionals and enthusiasts seek flexible, cost-effective solutions, our company is well-positioned to capitalize on this growth, leveraging our competitive strengths to expand our market share. We also compete with many smaller service providers who may offer lower prices, flexibility, and specialized means of services.

In conclusion, while the rental market is competitive, our company's strategic focus on quality, service, and customer satisfaction provides a strong foundation for sustained success and growth in this dynamic industry.

GENERAL CORPORATE LAWS:

Companies Act, 2013

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Act received the assent of the President of India on 29th August 2013. The Companies Act 1956 is still applicable to the extent not repealed and the Companies Act, 2013 is applicable to the extent notified. The Companies Act deals with incorporation of companies and the procedure for incorporation and post incorporation. The conversion of private companies into public companies and vice versa is also laid down under the Companies Act, 2013. The procedure related to appointment of Directors, winding up, voluntary winding up, and appointment of liquidator also forms part of the Act. Further, Schedule V (read with sections 196 and 197), Part I lays down the conditions to be fulfilled for the appointment of a managing or whole-time director or manager. It provides the list of Acts under which if a person is prosecuted, he cannot be appointed as the director or Managing Director or Manager of a Company. The provisions relating to remuneration of the directors payable by the companies is under Part II of the said schedule.

The Sale of Goods Act, 1930

A contract of sale may be an absolute one or based on certain conditions. The Sale of Goods Act contains provisions in relation to the essential aspects of such contracts, including the transfer of ownership of the goods, delivery of goods, rights and duties of the buyers and sellers, remedies for breach of contract and the conditions and warranties implied under a contract for sale of goods.

The Registration Act, 1908

The Registration Act, 1908 ("Registration Act") was enacted with the object of providing public notice of execution of documents affecting a transfer of interest in property. The Registration Act identifies documents for which registration is compulsory and includes among other things, any non-testamentary instrument which purports or operates to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, in immovable property and a lease of immovable property for any term exceeding one year or reserving a yearly rent. It also provides for non-compulsory registration of documents as enumerated in the provisions.

The Specific Relief Act, 1963

The Specific Relief Act is complementary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for the purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. Specific performance means the Court will order the party to perform his part of the agreement, instead of imposing on him any monetary liability to pay damages to another party.

Negotiable Instruments Act, 1881

In India, cheques are governed by the Negotiable Instruments Act, 1881, which is largely a codification of the English Law on the subject. To ensure prompt remedy against defaulters and to ensure credibility of the holders of the negotiable instrument a criminal remedy of penalty was inserted in Negotiable Instruments Act, 1881 in form of the Banking, Public Financial Institutions and Negotiable Instruments Laws (Amendment), 1988 which were further modified by the Negotiable Instruments (Amendment and Miscellaneous Provisions) Act, 2002. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheques not being honored by their bankers and returned unpaid. Section 138 of the Act, creates statutory offense in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two years, or with fine which may extend to twice the amount of the cheque, or with both.

Goods and Services Tax Act, 2017

The GST Act levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state are levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

Any aggrieved woman can make a complaint in writing to the Internal Committee in relation to sexual harassment of female at workplace. Every employer has a duty to provide a safe working environment at workplace which shall include safety from the persons coming into contact at the workplace, organising awareness programs and workshops, display of rules relating to the sexual harassment at any conspicuous part of the workplace, provide necessary facilities to the internal or local committee for dealing with the complaint, such other procedural requirements to assess the complaints.

Part B of the Schedule to the CLPR Act strictly prohibits employment of children in cloth printing, dyeing and weaving processes and cotton ginning and processing and production of hosiery goods.

INTELLECTUAL PROPERTY RIGHTS

Intellectual property in India enjoys protection under both common law and statutes. Under statutes, India provides for patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957 and trademark protection under the Trade Marks Act, 1999. These enactments provide for the protection of intellectual property by imposing civil and criminal liability for infringement. In addition to the domestic laws, India is party to several international intellectual property related instruments including the Patent Cooperation Treaty, 1970, the Paris Convention for the Protection of Industrial Property, 1883, the Berne Convention for the Protection of Literary and Artistic Works, 1886, the Universal Copyright Convention adopted at Geneva in 1952, the International Convention for the Protection of Performers, Producers of Phonograms and Broadcasting Organizations, 1961 and as a member of the World Trade Organisation is a signatory to the Agreement on Trade Related aspects of Intellectual Property Rights.

The Trade Marks Act, 1999 ("Trade Marks Act") The Trade Marks Act governs the statutory protection of trademarks and prevention of the use of fraudulent marks in India. Indian law permits the registration of trademarks for both goods and services. Under the provisions of the Trade Marks Act, an application for trademark registration may be made with the Trade Marks Registry by any person or persons claiming to be the proprietor of a trade mark, whether individually or as joint applicants, and can be made on the basis of either actual use or intention to use a trademark in the future. Once granted, a trademark registration is valid for 10 years unless cancelled, subsequent to which, it can be renewed. If not renewed, the mark lapses and the registration is required to be restored to gain protection under the provisions of the Trade Marks Act. The Trade Marks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks among others. Further, pursuant to the notification of the Trade Marks (Amendment) Act, 2010, simultaneous protection of trademark in India and other countries has been made available to owners of Indian and foreign trademarks. It also seeks to simplify the law relating to the transfer of ownership of trademarks by assignment or transmission and to bring the law in line with international practices.

Copyright Act, 1957 ("Copyright Act")

The Copyright Act, 1957, along with the Copyright Rules, 1958, (collectively, "Copyright Laws") governs copyrights subsisting in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings, including computer programmes, tables and compilations including computer databases. Computer programme constitutes a literary work under Indian law and is afforded copyright protection and the owner of such computer programme becomes entitled to protect his works against unauthorized use and misappropriation of the copyrighted work or a substantial part thereof. Any act of this nature entitles the copyright owner to obtain relief from a court of law including injunction, damages and accounts of profits. Further, copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work and once registered, copyright protection remains valid until expiry of sixty years from the demise of the author. Reproduction of a copyrighted computer programme for sale or hire or trade exhibit in public or distribution or commercial rental, offer for sale or commercial rental, issuing copy(ies) of the computer programme or making an adaptation of the work without consent of the copyright owner amounts to infringement of the copyright.

However, the Copyright Act prescribes certain fair use exceptions which permit certain acts, which would otherwise be considered copyright infringement.

The Patents Act, 1970

The Patents Act, 1970 (“Patents Act”) governs the patent regime in India. Being a signatory to the Agreement on Trade Related Aspects of Intellectual Property Rights, India is required to recognize product patents as well as process patents. In addition to the broad requirement that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. Section 39 of the Patents Act also prohibits any person resident in India from applying for a patent for an invention outside India without making an application for a patent for the same invention in India. The term of a patent granted under the Patents Act pursuant to Section 53 is for a period of twenty years from the date of filing of the application for the patent. A patent shall cease to have effect if the renewal fee is not paid within the period prescribed for the payment of such renewal fee. While the Patents Act prohibits patentability of a ‘computer programme’ as such, computer programmes in combination with novel hardware could be considered patentable depending on the substance of the invention and applicable provisions of the Patents Act. Computer programmes on their own are excluded from patent protection and are protected as a literary work under the Copyright Laws. In terms of the Patent Act, the patentee holds the exclusive right to prevent third parties from the using, offering for sale, selling or importing for such purposes, the patented product or product obtained directly by a process patented in India.

FOREIGN INVESTMENT LAWS:

The FTDR, read along with the Foreign Trade (Regulation) Rules, 1993, provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. It authorizes the government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The government has also been given wide power to prohibit, restrict and regulate the exports and imports in general as well as specified cases of foreign trade. The FTDR read with the Foreign Trade Policy, 2023, prohibits anybody from undertaking any import or export except under an importer-exporter code (“IEC”) number granted by the Director General of Foreign Trade. Failure to obtain the IEC number shall attract a penalty under the FTDR.

The Conservation of Foreign Exchange and Prevention of Smuggling Activities Act, 1974

COFEPOSA confers power on the Central and the State Governments to issue orders for detaining a person if it is satisfied that the person has acted detrimental to the protection of foreign exchange. The Government shall also issue an order of detention on the ground that the person has engaged in the activity of smuggling goods, assists any person in smuggling goods, transports or conceals such goods, harbours any person employed in the smuggling activities or does any other

activity related with smuggling. Such an order shall be issued by the Joint Secretary to the Central Government or Secretary to the State Government or any senior officer authorized by the Government.

Foreign Direct Investment

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy Circular of 2020 (“FDI Policy 2020”), which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until the DIPP issues an updated circular. The Reserve Bank of India (“RBI”) also issues Master Directions Foreign Investment in India and updates the same from time to time. Presently, FDI in India is being governed by Master Directions on Foreign Investment No. RBI/FED/2017-18/60 FED Master Direction No. 11/2017-18 dated January 4, 2018, as updated from time to time by RBI. Our objectives are to obtain reasonable assurance about whether the Special Purpose Carved Out Combined Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

If we conclude that a material uncertainty exists, we are required to draw attention in our Auditors' Report to the related disclosures in the Special Purpose Carved Out Combined Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Moving Media Entertainment Limited Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Special Purpose Carved Out Combined Financial Statements including the disclosures, and whether the Special Purpose Carved Out Combined Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Company and Issuer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance of the Company and Issuer with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The Special Purpose Carved Out Combined Financial Statements have been prepared on a going concern basis considering the material accounting policies stated below. The procedure followed for the preparation of the Special Purpose Carved Out Combined Financial Statements is as given below:

(a) The financial information for the Moving Media Group included in the Special Purpose Carved Out Combined Financial Statements have been extracted from the audited standalone financial statements of Moving Media Entertainment Limited (formerly known as Moving Media Entertainment Private Limited) & M/s Moving Media (Proprietorship) to the extent considered necessary, for the years ended March 31, 2024, March 31, 2023 and March 31, 2022 as applicable, which had been prepared basis in accordance Accounting Standards ('AS') notified under the Section 133 of the Companies Act, 2013 ('the Act') and other generally accepted accounting principles in India.

(b) Since these Special Purpose Carved Out Combined Financial Statements have been prepared for use in connection with the proposed IPO of the Company as stated above, the same has been presented based on the latest audited Financial Statements of the Company and has been prepared in accordance with the accounting policies applied therein.

(c) The historical costs and expenses reflected in the Special Purpose Carved Out Combined Financial Statements include an allocation for certain corporate and shared service functions are based on the individual unit level financial statements wherein the same have been allocated either on the basis of actual usage when identifiable or on such other basis which provides a reasonable reflection of the historical utilisation levels of these services.

(d) Deferred Tax liability in respect of the Carve-Out Business has been determined considering the applicability of various provisions of the Income Tax Act and having regard to the expert opinion obtained in this regard, which has been appropriately recognised in the Special Purpose Carved Out Combined Financial Statements, with corresponding adjustment in the Owner's Net Investment.

(e) Since these statements have been prepared on carve out combined basis, it is not meaningful to show a share capital or provide an analysis of reserves for the period prior to the date of incorporation of the Company. Proprietor's Capital (representing owner's investment) disclosed in the Special Purpose Carved Out Combined Financial Statements therefore represents the difference between the assets and liabilities pertaining to the Moving Media Group, duly adjusted for the balances carried in reserves and surplus. The balance in reserves and surplus represents retained earnings pertaining to the Combining Businesses which has been determined based on the closing balances as of March 31, 2021 duly adjusted for the profit including other comprehensive income for the respective financial year.

(f) The equity share capital of the Company as at March, 31, 2024 is ₹ 1 Lakh represented by 10,000 shares of par value ₹ 10/- each. As per the BTA 10,91,056 shares were issued at face value of Rs. 10 and Rs 150 premium per share to acquire M/s Moving Media. Since the Statement of Profit & Loss presents the operating results for the entire financial year of Proprietorship, it is not practical to determine and disclose the earnings per share in the Special Purpose Carved Out Combined Financial Statements.

Management believes the assumptions underlying the Special Purpose Carved Out Combined Financial Statements including the assumptions regarding the allocation of general corporate expenses, are reasonable. Nevertheless, the Special Purpose Carved Out Combined Financial Statements may not include all of the actual expenses that would have been incurred had it been operated as a standalone company during the periods presented and may not reflect the combined results of operations, financial position and cash flows had it operated as a standalone company during the periods presented, since the actual costs that would have been incurred if it had been operated as a standalone company would depend on multiple factors, including organisational structure and strategic decisions made in various areas, including information technology and infrastructure and other additional costs. Events occurring after the date of approval of the financial statements of Moving Media Group for the respective years, if any, have not been adjusted in the Special Purpose Carved Out Combined Financial Statements.

These carved out combined financials have been prepared on a carved out basis to present the assets and liabilities of the Moving Media Group at these dates, as if the Group had been in existence as at these dates. As a result, these financial statements may not be suitable for any other purpose.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY RETAIL INDIVIDUAL BIDDERS AS PER THE UPI CIRCULAR

SEBI has issued circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 and circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the "UPI Circulars") in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019, or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Investor had the option to submit the Application Form with any of the Designated Intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continued for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six working days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023, and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Issue is being made under Phase III of the UPI (on a mandatory basis). All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI payment mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Manager.

Pursuant to the SEBI UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send

SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – issue Book Running Lead Manager will be required to compensate the concerned investor.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI payment mechanism.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>.

The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
